Thread: [Free Sport Betting Winning Formula](#)

SugarDaddy - February 25, 2017, 6:44 am

Hey how is it going HF ?

So here it is a nice formula to gamble on soccer games .

First we need to study a soccer game that mostly ends in draw. Most soccer games that end in draw gonna be Italian or French or Brazilian teams.

So for example lets take a look on Empoli (italian soccer team) last 6 matches :

Empoli - Lazio 1-2

Inter - Empoli 2-0

Empoli - Torino 1-1 WINNN

Crotone - Empoli 4-1

Empoli - Udinese 1-0

Sampdoria - Empoli 0-0 WINNNN

Here is how it works..

We go for Empoli-Lazio and we pick on draw (minimum odd for draw is 3.0) and we bet \$1000.

We lost \$1000.

We go for Inter - Empoli we pick on draw (but we double the gambled money so it is gonna be \$2000 x 3.15)

We lost again .

We go for Empoli - Torino we pick on draw (we double the gambled money so it is gonna be \$4000 x 3.0)

We win \$12000.

Till now we have gambled \$1000 + \$2000 + \$4000

Equal to \$7000.

So we have a \$5000 profit

what if the games starts? at same time?

chr9ped - February 25, 2017, 9:52 am

Check out the Victorian league in Australia if you are using this method.

They always draw :P

All of these are games involving Empoli, they are not on at the same time.

I just checked this out and out of 2/3 games yesterday, they were both draws. Thrown \$100 on this to see what happens lol.

chr9ped - February 26, 2017, 2:52 am

Also trying this out.

Starting with small bets though :)

SugarDaddy - February 26, 2017, 9:24 am

The secret of this is to never give up ..

Just when you think the match wont end in draw ,
thats when it happens !

You could pm me if you need any other teams that draw alot .

chr9ped - February 26, 2017, 10:24 am

Santos Laguna - MEXICO: Primera Division - Clausura

7 games played - 5 draws - %71

Andria - ITALY: Lega Pro - Group C

27 games played - 14 draws - %52

Vizela & Gil Vicente - PORTUGAL: Segunda Liga

Both teams have 29 games played - 14 draws - %48

Mensajero - SPAIN: Segunda Division B - Group 2

27 games played - 14 draws - %52

Inegolspor - TURKEY: Spor Toto 2. Lig Red Group

24 games played - 12 draws - %50

Aguilas - COLOMBIA: Liga Aguila - Apertura

5 games played - 4 draws - %80

Hit me up if you have other teams in mind ?

Thanks !

But it all dipends when do they draw.

The later they draw the higher the profit will be .

Cuz you keep doubling the amount of money when gambling :)

Just keep gambling in the same team.

I would recommend italian , french team.

Always on the same team tho ! That is a must

What site do you use to conduct your sports bets?

So if your team loses you resort to the martingale betting method? I always seem to get screwed

over when attempting to use that method.

SugarDaddy - February 26, 2017, 10:48 am

Yes a huge investment but i promise it is gonna work .

You just have to be patient .

If you pick the right team you could always profit from it.

(Feb 26, 2017 11:44 AM)Borderlands Wrote: [\[CITE\]](#) So if your team loses you resort to the martingale betting method? I always seem to get screwed over when attempting to use that method.Exactly.

But the thing about this method is that betting on draw gives you odds 3.00 or more. Which is higher than the usual roulette-martingale method which only gives you 2.00.

And if you find teams like the ones I listed earlier in this thread you will most likely win pretty often.

I would advise you to set the 'start-bet' low enough that you can allow yourself to lose 9-10 games and still be able to continue.

I highly doubt that you will run into a losing streak on 9 or 10 if you bet on team with a draw-rate at 45% or higher. But anything can happen.

It really doesnt matter .

You could try bet365 ..

You could also check out my thread <https://hackforums.net/showthread.php?tid=5558353>

on how to make some profit from bet365.

So you can start somewhere
