Thread: [Trying to stream \(mirrior\) my Iphone 7+ to my samsung smart TV. Help!](#)

Hello,

I have an iphone 7 and I'm trying to mirror my screen to it for game play. Most of the apps that I've found only want to share still pictures and some videos, I don't want that, I just want my entire screen shared on my TV. Any idea how I can do this?

Thanks so much!!

Hardwire or AirPlay via Apple TV.

Wire:

Apple does not allow screen casting aside from AirPlay.
