Thread: [WhiteCollar Crypter Final Beta Release 99% FUD update](#)

ElmagoLoko - February 26, 2017, 3:45 am

Hello everyone, after 18 hours working on the crypter, I managed to get 99% FUD.

In the final version the intention is that it is 100% FUD.

It's just missing kaspersky bypass

But I do not know when it will be released.

No date marked.

It will be totally free.

I'll keep the crypter up to date.

Once the final version is released the next step is to add advanced options.

I accept suggestions.

If you after use and liked it. I'm accepting a reputation too.
