Thread: [Keylogger without using NET.Framework](#)

Omid_SBL - February 26, 2017, 2:58 pm

hi.

I'am looking for a keylogger that don't use NET.Frame work.

that PC i want to install keylogger on it dont have NET.Framework and i have just GUEST user and i cant install programs.

can you help me PLZ??

Is your PC a MAC or Linux?

Omid_SBL - February 26, 2017, 3:50 pm

windows 7 with GUEST user.

HexaCrypt - February 27, 2017, 3:14 am

windows 7 already has framework, then why you looking for logger without framework?

Malicious Intent - February 27, 2017, 3:21 am

Use UAC bypass to install what you need on guest session.

Omid_SBL - February 28, 2017, 7:10 am

what is UAC bypass??

Can you explain about this method or give me link about it??

Mr.Magnificent - February 28, 2017, 7:10 am

Google is a guys best friend
