(Feb 28, 2017 01:35 PM)MightyOne Wrote: [\[CITE\]](#) Well you said the most deserving member, so i hope this will help me getting upgraded ^^

I dont have alot that i gave to the forum yet to prove my deservness to be upgraded freely by you, but i can prove the fact that im a good person and hopefully that will convince you :)

For the forum itself and the community, i made already 2 steam game giveaways and have 3 more game gifts to give away that i will host soon :) rather then that i have no real tutorials or anything else so far that i have done for the community, im still a new member here.

But! I have volunteered in M.D.A for 3 years which is a life saving organization in my country just like Red cross or any other organization, saved a few people's life and obviously helped alot along the way for less injured and hurt folks ive encountered.

also, i have been for 3 years in the army, first as a soldier, a paratrooper! and eventually also a shooting instructor.

im trying my best to be a good person, kind and always fair to others.

Thanks alot and good luck to all other participants !

I know I don't deserve l33t but it would be appreciated!

fmarion - February 27, 2017, 11:14 am

I would love l33t!!!

I have posted a lot in Hacking/Wifi Hacking and have been a member since Sep 2016.

~Rexon - February 27, 2017, 11:15 am

I would love to get upgraded to l33t. I've been on this forum a while now and I will continue to spend a lot more time on it. At the moment, I am trying to sell various things in order to fund business ideas that I have to make even more money. I feel that I would be able to achieve this goal much more quickly if I was l33t as upgraded users are generally seen as more trustworthy and so I would get more potential customers. Being totally honest, I could probably afford to fund this myself but money doesn't grow on trees and you're willing to help, so why not?

Also I feel as if members who are not upgraded do not get enough respect. Upgraded members are more likely to be rude to members who are not upgraded and of course in the Internet, you just have to deal with it, but it would be nice to be treated with more respect.

Anyways thank you very much for hosting this giveaway and good luck to everyone else!

Well, I deserve it because I've help other members out in this forum and I'm always willing to help someone.

Good luck to everybody.

ZenLove - February 28, 2017, 5:27 am

I've been on HF since 2011, and I am yet to win ANYTHING. Sometimes I think everyone posts these type of threads of rep, and hand out the win to their friend. But I am going to keep trying, because you never know :D

But pick me, because I think I deserve L33T! Also thanks for the opportunity

Fortiond - February 28, 2017, 11:18 am

After seen all posts I feel like there are lot of people who deserve this than me ?

But I will post. I have helped members a lot. You can see it from my rep ?

Also [here](#) is my FREE service thread

Thanks OP for the give away

I am looking for signs that a user will become a valuable member of the community. Helpful posts along with overall activity are some of the things I will be checking.

Pronouncer - March 2, 2017, 2:35 pm

I would like to win this for numerous reasons.

1. As you can see by my recent activity I've been assisting a few users
2. I have been mixing around with users from HF, from before the group's instinct was made and rebranded to night fall, I never signed up on here due to numerous reasons.. I made my way into the blackhand and Null. Where I am a reputable member withing groups.. I also managed to work my way into the group legends for two days (Skype group) before I left
3. I'm currently a student Persiing a career in cyber security
4. I have a CEH, OSCP, Comptia Net, Comptia SEC+, Cisco Network certifications
5. I have given stuff away to members including two nanocore licenses, also provide free mentorship to hacking offsite (pm me if interested)
6. I'm a nice guy :P
7. I'm currently working on a actual book that will be on sale at amazon (A guide to hacking, and ethical hacking), which I am currently 70 pages into, and will release for free on hackforums for the first few months as an e-book, the papercopy will be on sale for obvious reasons
8. I'll also be serving two years in the military to try help fund the rest of my master's degree, (I'll be joining the cyber defence unit in united kingdom)

I appreciate you giving back to the community and would like to wish everybody good luck
