Thread: [All of these betting groups... \(Betting addicted 10+ years\)](#)

Roberto Scorpius Malfoy - February 26, 2017, 4:46 pm

Well in the past i have seen so many betting groups here (Pepole that take money to just give some tips)

Well im personally a betting addicted i have been betting since i was a kid (My father went to a betting place one time and he took me with him and i placed my first bet as a 8 year old kid) When i became 10 years old i started to bet 1 dollar every weekend and for every year i became older i raised my "placed money on the bets"

And after all of this years i can clearly say that theres nothing called skills. Its all about luck. Just because you have a great month and you make some money it doesnt make you to something special.

I know so many pepole that gives out tips and after they notice that some pepole make money from their tips they started to get greedy and ask for money to give out more tips (It all ends up with a lot of losses and at the end they realize that they aint something special)

<http://prntscr.com/eds2ie> This month has been a great month for me i made 5000 Dollars with 300 dollars.

Here is my free tips to you guys tonight

100 USD ill win 300 USD. Tarasenko to score a goal against Blackhawks

100 USD I win 250 USD St Blues to beat Chicago (Including OT and Penaltys)

Please do not take this as any offense from my side. I respect all of you that has open betting groups. Its your business and i fully respect you guys.

I doubt it's about luck Everyone loses because they do not research about it

It's not luck in the long term or you would just coin flip your picks each day, that's ludicrous. Idk why you would tail somebody's tips when they have that betting mentality.

It isn't ALL about luck. I bet constantly and research really helps.
