What are your thoughts on John Wick: Chapter 2?

I loved it, saw it a second time yesterday still one of my favorite action movies in a long time.

If you havent seen the first John Wick yet, you should! However you dont need to see it just for the Chapter 2.

Absolutely brilliant movie, loved the combat and all the development Keanu went through to get ready for this movie. There is a pretty funny video on YouTube where he reacts to reviews of number 2 being better than the 1st

Yep! I heard about his training too! He went through intense choreography training for the movie.

He also did loads of live ammo training getting used to each of the guns and their use. He is the king of Gunfu!

You're gonna love it if you love just straight up revenge action movies.

It was very intense and action filled, I enjoyed it.

Also the training he must have went through for that choreography must be insane.

pfff...after reading this thread i will finally watch John Wick and then go for the 2nd one! only reason i was kinda hating this movie for no reason its because my mother have watched this like a hundrer times with her homo friend... i was even disgusted of the fucking soundtrack...which in reallity its such a great piece of music! BRB after i watch John Wick i guess...

Awesome movie, saw it three times during release week here in the Uk.

Love all the subtle nods to the original, with things like the '2 men in a bar, with a pencil' scene. Keanu is just one hell of an actor.
