Thread: [\[2017\] Email SPAM Prank 3.7 - Spam your friends or enemies email address](#)

prilux - March 1, 2017, 3:37 am

Email SPAM Prank let's you send spam emails to any email address.

To use is quite simple just open Email SPAM Prank and write the email.
After a few seconds the targeted email will start receiving spam emails.

Goes to inbox or spam/junk? (Referring to Gmail/Hotmail). Awaiting your response, thanks.

liam270591 - March 1, 2017, 8:57 am

To answer that question. It goes in to the spam / Junk. Total garbage.

baremig - March 1, 2017, 12:03 pm

Anyone tried it out? Does it work? Please response

Hi,

Thanks for the feedback!

In the private version it comes with Email SPAM Generator which is a premium product.

Hey guys..... I would need a request from anyone who will help. I actually need someone who will teach me how to spam. I would appreciate.

redeyes12345 - September 26, 2018, 5:39 am

I can make scam pages. I will make free for first 5 people. You will have to come back here and confirm i have done it. Add me on ICQ

kcdesigns - December 21, 2018, 8:36 am

it only goes into spam so not very good
