Thread: [>>> Nevieth's Free Sales Thread Design w/ Fonts included <<< | DL LINK IN THREAD](#)

Nevieth - March 1, 2017, 3:21 pm

I've got a new design for everyone! This time it's built specifically for selling whatever products you need and is easily editable.

What you'll get [\(Click to View\)](#)

What it looks like - LARGE IMAGE [\(Click to View\)](#)

How it appears in Photoshop - LARGE IMAGE [\(Click to View\)](#)

Please let me know what you think and let me know if you use it, I'd love to see what you can make out of it.

All fonts used have been included and the giant watermarks are easily hidden with a click of a button. They're there more to prevent leechers from stealing the .png image itself.

PLEASE DO NOT REMOVE THE SMALL WATERMARK ON BOTTOM OF THREAD DESIGN WHERE IT SAYS 'MADE BY NEVIETH'. It's small and will probably go unnoticed by your customers, so don't remove it. You are absolutely free and even recommend to toggle the large watermarks off though.

I had a Rate My Graphics thread up for it and you can see the responses here.

Thanks! I did the best I could with organizing the layers into groups, and even subgroups.

I'm interested to see what people can make out of this. :)
