Exquisite. - March 10, 2017, 8:35 am

Name: Sensei34

Age: PM.

Skills: Graphic Design, Marketing (topkek), Psychology, English Writing & Literature, Math & Networking And System Support, Money/Finance Management.

Monetizing methods: Crypto-Currency Exchange, Sales Management, Creating Successful Business Visions, Item Flipping & Taking Advantage Of Game Economies (like CSGO for example, with skins). I've made large amounts of money with each and every single one of these topics - and I think I could contribute to the group a lot with professional tips and ideas.

What is your typical income for a day: I'd rather tell you via personal message, however you're looking at around \$300-\$500 (on a good day the latter). For a more, in-depth rundown then yeah, please personal message me regarding this, if necessary at all.

Why do you want to join the group?: I want to involve myself with other proficient salesmen/saleswomen (it's 2017, can't be assuming genders). I'd also like to share tips and aid with my intellect upon certain topics and areas if necessary. It'll also be extremely nice to socialize with, and meet new users and build new relationships - it's also an excuse for me to start doing giveaways and contests.

Why do you deserve to be apart of the group?: I don't necessarily think I deserve to be within the group, but more why I would like to. I would like to be apart of this group because I'm fairly new to HackForums and I'd like to kick-start myself and familiarize myself with the community and make awesome friends that I can relate to whilst doing so. It's an all in all win/win for all of us.

What do you think about The Marketers:

From what I've gathered around the forum board, a group consists of people that are proficient with what they do - also friendly and high quality.

How many hours a day are you online:

My job requires me to be online for ~ 10 hours per day *for 5 days; the other 2 are my resting days where I see friends and whatnot.

If accepted into the group, will you be active in the sub forum: 100% - one of the primary reasons I'm joining is to meet new people and start discussions.

Sing - March 11, 2017, 2:29 am

Name: Sing

Age: 18

Skills: I have a variety of skills that are expanding continuously. My strong subjects are selling and I would like to say entrepreneurship is a skill but we may have differed opinions.

Monetizing methods: I work both online and offline to make income and my main monetizing method is, exchanging.

What is your typical income for a day: My income fluctuates heavily on a day to day basis. My minimum income for any given day is around \$100-150 with 1-2 hours work. With my investments and other things I can get to \$500/day profit.

I do re-invest heavily into my projects as I feel that without investment there is no future.

Why do you want to join the group?: I have not been apart of a group on HF for a while. I would like to get back into working with the community and also re-investing my time & money into users of the group. I hope to also expand my knowledge and social circle in order to further develop future products/ideas.

Why do you deserve to be apart of the group?: I deserve to be apart of the group because In my honest opinion, It's very rare to find an individual these days on HF that's trustworthy with trading large amounts. I've been working with members through large amounts for a while and being apart of Marketers will only help me in furthering my 'career'.

What do you think about The Marketers: I don't interact personally with anyone in the group to my best knowledge. I have seen a lot of HF groups come and go and marketing groups especially have had a rough time in the past. I think that the current Marketers group are worth applying for and worth investing my time into.

How many hours a day are you online: Anywhere from 6-18. Depends if I'm doing things during the day.

If accepted into the group, will you be active in the sub forum: Yes, of course. I find sub-forums to be a very helpful place and friendly place to be in.

Monetizing methods:

Recently I've been reselling clothing, electronics, etc... Buying cheap & selling high.

I tend to do the same with social mediums online, such as Twitter, Snapchat, YouTube, Instagram, etc...

What is your typical income for a day:

Well I don't go by day as I don't buy enough to resell fast enough, but to average all income into days (lets say for the past month) would be \$80-100.

Why do you want to join the group?:

I'd like to join the group to learn more methods / tactics to making money, as well as having the resources needed.

I have high respect for the members in The Marketers, as it's a sign of financial success just to be able to wear the userbar.

Why do you deserve to be apart of the group?:

I don't feel like I deserve to be in the group more than the next guy, but I'm 19 and wearing designer clothing, 24k gold jewelry & driving a luxury vehicle.
