Thread: [HTML Cant Zoom the second picture.](#)

BorisGrigoryan - March 2, 2017, 2:43 am

Okay so i used this code

https://www.w3schools.com/howto/tryit.asp?filename=tryhow_css_modal_img

The first picture i can zoom when i click on it, but when i try with the second picture it does not zoom in, any idea why?

```
Code    <div class="col-md-3 img-portfolio">
        [b]<!--[/b] Trigger the Modal -->
            
            [b]<!--[/b] The Modal -->
            <div id="myModal" class="modal">
            [b]<!--[/b] The Close Button -->
            <span class="close"
onclick="document.getElementById('myModal').style.display='none'">&times;</span>
            [b]<!--[/b] Modal Content (The Image) -->
            <img class="modal-content" id="img01">

            [b]<!--[/b] Modal Caption (Image Text) -->
            <div id="caption"></div>
            </div>

        </div>

        <div class="col-md-3 img-portfolio">
        [b]<!--[/b] Trigger the Modal -->
            
            [b]<!--[/b] The Modal -->
            <div id="myModal" class="modal">
            [b]<!--[/b] The Close Button -->
            <span class="close"
onclick="document.getElementById('myModal').style.display='none'">&times;</span>
            [b]<!--[/b] Modal Content (The Image) -->
            <img class="modal-content" id="img01">

            [b]<!--[/b] Modal Caption (Image Text) -->
            <div id="caption"></div>
            </div>

        </div>
```

Any kind of help will be awesome.

(Mar 2, 2017 04:08 AM)Orka Wrote: [\[CITE\]](#) Only the 1st img has a click handler, you need to attach

for the 2nd too.

Here: <https://jsfiddle.net/orkatek/LfLry7f7/>

Thx brother! works perfect now.
