The eBook is really easy to read but a bit long, easy to set up and took me about 45 minutes.

Method ==> 10/10

Again, I've never seen these before, but I'm no expert when it comes to these types of methods. I earned a bit of money in just a few hours.

Design ==> 8/10

It's easy to read this eBook, doesn't irritate the eyes and easily comprehensible.

Total ==> 8.75/10

Over all pretty good eBook for those who want to make some quick cash without much knowledge of monetizing techniques, etc, recommended for starters!

My opinion on this method after buying :
(First of all, please excuse my bad english because it's not my native language).

I bought the Simple pack.
The method is fresh and new for me, and it's smart.
But there is no way to make 100\$+ per day.
You'll make 1-2\$ at best.

I sent a message to the owner to know how to make more, he said to me to buy the ultimate pack to get more informations.
What I did...

But the ultimate pack is THE SAME pack with 3 extras independants methods. The 3 others methods are not new at all (including selling on fiverr) and It demands a lot of efforts... This is not very effective.
The first is the best so far but it is very slow.

So here is my conclusion :
If you want to make 1-2\$ a day in autopilot, buy the simple pack (others are useless to me)
If not, I wouldn't recommend to buy.
