Download:

http://www.mediafire.com/file/b505md73ohk3pn8/Spotify_Voice_Controller_CRINGE_EDITION.exe

Features:

- probs not as many as the other one

Play;

Pause;

Next;

Previous;

Mute;

Unmute;

Help;

Up; (Volume)

Down; (Volume)

Toggle; (Activates/Deactivates Voice so you dont accidently change music)

code = c#

its obfuscated becos im rip my messy code

made in 30 mins

ok bye

EDIT: Volume controller works but may be a bit glitchy, will fix.

Yes, the common issue of having cum in your hands however you want to play music and don't want to touch your mouse.

(For the lazy ones who don't use tissues or socks)

Nice release! But there's one small issue. After I released my load I moaned, and it mistook my groan for a command.

That's why I designed the toggle feature.

So you don't accidently say or moan at any commands.
