Thread: [\(FREE\) E-Whore Pack! Blonde, Videos - Verification Pics! MADE \\$2000 With The Pack](#)

Shortcut - March 4, 2017, 8:34 am

Whats up guys!

I have been e-whoring for about a little over a year now, and have used a lot of different e-whore packs. This pack in particular has made me \$2000+.

I thought it was about time to give back to the community. Here it is!

DISCLAIMER!

So I got this pack off of someone in hackforums about 7 months ago. So this pack is not MINE in anyway. I dont really remember whos it was, but its not mine. If anybody knows let me know.

Its completely unsaturated! It has over 50+ pictures, A BUNCH of videos, some verification pictures, and non-nude selfies that can be used for profile pics, etc..

About the pack:

Spoiler [\(Click to View\)](#) She has some tattoos, a lot of tattoos in specific areas.

From my experience e-whoring, a bunch of dudes like girls with tattoos, so this will most likely boost your earnings.

She has blonde hair and blue eyes. A very fit body, and is really believeable. The shots arent too professional so it wont look like a model when you are trying to sell. Its taken from a regular phone camera making it more believeable.

Some previews of the girl:

To get the pack:

Spoiler [\(Click to View\)](#) 1. PM me

2. Done.

-Peace!

The reason for the +rep is because there is a lot of leeches nowadays, plus you are doing something for the community rather than just getting a free pack.

I know its a bit shady but the pack is free.. :)

Well good luck with it, i don't rep unless i feel the person deserves it, and i don't need packs either though ???

sh4dow.gg - March 4, 2017, 8:48 am

thought it was not allowed to ask for reps

You are not allowed to ask for +rep as requirement for this package, edit your thread.

User is still asking for +rep after being warned multiple times in this thread by other users that this IS AGAINST the rules here.

All fine and dandy that you want to share and to the community but people should rep you if they feel the need to, not as a condition for the pack. Sorry but I hate rep begging.

Especially since you seem to just want the rep, not to really share something with the community, as evidence by you continuing to beg for it after being warned. Also, adding "you don't have to" in the PM isn't you NOT braking the same rule. You are actually braking the same rule, you are still asking for rep.

I've reported you.
