?

Okay n awaiting for yours.

SIM-2362145 - March 9, 2017, 3:48 am

Most of them are to be honest.

Please suggest a good 1.

Pim Fortuyn - April 12, 2017, 3:32 pm

NexusLogger supports all unicode characters perfectly fine.

Any .net compatible crypter. we offer 2 versions on the stub builder, a .net framework 2.0 and a .net framework 4.0 version.

NexusLogger is currently FUD though.

Thanks for vouching my product. ?

musa20 - April 15, 2017, 3:28 am

it s work in all windows and undetect i hacked many account with this nice logger

only qwesk keylogger

my friend asked me best pay key logger for hack fb account i sayd him qwesk keylogger tested by me and i love it

he bought this keylogger he sendd pm for me today he get his girl friend fb user &pass with this keylogger
