Proof buying it: <https://imgur.com/a/JDF3a>

So basically I bought The package that is suppose to come with everything which is Skype support/Personal 1-on-1 mentoring And updates and a full warranty so this eBook has 4 method 3 methods are pretty public anyone can find this. Method 4 has something to do with e whoring and on his sales thread he puts "Astro profit does not include e whoring" which is a lie. Any way he said that I would receive top notch support since I bought the more expensive package in the beginning he did help a little and I tired his methods and I haven't made anything and its been 30 days I been trying to contact him every since but no reply. He also said he will be updating the eBook soon this was on February 11

Which hasn't happen its now 3/7/17 and still no update

I been trying to contact him on Skype but no reply and I been trying on here too he gets online but I guess he ignores my message

Lol people, please just contribute to this DD, or dont add unnecessary comments such as "dont buy ebooks, blablabla".

Anyway, id recommend you to explain what happened and how everything proceeded. |the way you made this thread is very awful, we do not understand the processus or anything, we just get accusations. GL, just a heads up
