Thread: [Need something easily found or easily made - couple dollars](#)

BSM72910 - March 8, 2017, 4:05 am

Basically what I need is a sound file that is atleast 2+ hours long, I dont care how long it is just need it 2+

Every 5ish minutes I want it to play a very subtle sound. Not too loud but it should be heard.

Between those intervals of the sound it should be DEAD silent.

You can make this yourself and upload it (very easy) or find me a youtube vid that does this and I can just DL that

I'll be paying a couple dollars pp to anyone who can do this!

I'm making this for you, since I was unable to find it online.

Please wait a little as I do this for you.

Also, could you possibly pay me in BTC?

FlokiCS - March 8, 2017, 10:55 am

Just curious, why do you need this?

edit: ah nvm ur gonna torture somebody by keeping them awake

I've done it: [download link](#)

So now if you could please send the payment to the BTC address in my signature as soon as you get on, that'd be great.

A small small beep, a slight noise, anything like that
