Thread: [Made \\$700 by crypto currency trading](#)

Gizmo - March 8, 2017, 1:28 pm

Hey,

After all those years on HackForums I finally made some decent money. I made this money by trading in crypto currencies ? I am involved in trading for like a year or so, but the last 3 months I am really active.

I made a total of +-\$700 which I find really nice. I have bought a Oneplus 3T from that money, which I hope will be delivered soon! ?

And I remember you! Some great advice there. Thanks again.

Sorry I did not PM you about it to let you know.

I have already send you a PM. ?

I hope it will help you out.

AlfaBravo00 - June 18, 2019, 8:29 am

Could you also send me some tips please I've always wanted to get into trading but always thought it was a scam haha

FaggNigg - June 18, 2019, 9:14 am

How much did you invest in to get those 700\$? i always want to trade crypto daily, i only invested long term

PARABELLUM - June 18, 2019, 1:59 pm

Good, now don't get greedy and don't invest in shitcoins and low volume coins, follow a good project

and get close to devs, they may give you informations that will lead to future pumps.
