Thread: [Malbox Malware : Source & Binaries](#)

fapsterx - March 8, 2017, 9:58 pm

I'm not sure if this is the right place to post this, but I wanted to share it with you guys.

Huge pile of direct downloads to some of the most famous Malware/Rats/Trojans/Ransomware and more! Full source code for almost every download! Some of the most well known Rats, Trojans, Ransomware and much more! Check it out, learn about it and use it for educational purposes! I am releasing this for people to have the chance to really study malware and other forms of malicious code. Run this in a VM and be very careful! This is extremely nasty malware! Only use if you know what you are doing! USE AT YOUR OWN RISK! If you know how to use it and what to do with it, it's really good stuff!

Images wont work, not the links to them :(
