**x0rk** - March 10, 2017, 12:10 pm

Interested, i do have a "stupid" question. If i bind a windows executable with a picture for exemple, then i run the output on a mac computer : will it open also the executable ?? Anyway, shoot me a pm as soon as you can.

Once bound it will show as an exe not as a jpeg or png or whatever. If the file extension is changed to these it won't run.
