Thread: [Harassment TheVBScripiter](#)

LANCE - March 9, 2017, 1:17 pm

This user as harassed me and then block me and then gave me negative feedback for 4 matching ips. The reason behind me having 4 matching IP's is because I was young and made the accounts up years ago and forgot the passwords to them and have no way of getting them back. I also did not scam anyone for those who might accuse me.

Like wdf is it with people like this these days. All because they have high rep they think they have power.

Cammy - March 9, 2017, 1:18 pm

This thread will not help you in any way

C?rrupt - March 9, 2017, 1:18 pm

This is literally the most cancerous thread I've ever laid my eyes on.

?????s? - March 9, 2017, 1:19 pm

Have you had a good day lately?

Arrogance - March 9, 2017, 1:19 pm

First of all, this does not belong to The Lounge. If you feel the user has violated the rules feel free to PM a Staff with evidence, there's not much we can do as users about it other than being sorry for the behaviour of some people in this forum, just to clarify - he does not represent anyone else.

LANCE - March 9, 2017, 1:20 pm

So how do I go about reporting harassment and stupid negative feedback for no reason what so ever. Now I am on his ignore list I can not report him.

Troep - March 9, 2017, 1:22 pm

Same for me bro thevbescraper has autism

Delta - March 9, 2017, 1:22 pm

Yes welcome to hf where if people think you're a multi they'll neg you to warn people as most people check rep over the ts. Best thing to do is to either ignore it or message him and try and get it resolved. In this case i'd just ignore it and move on.

Arrogance - March 9, 2017, 1:23 pm

Can't wait to see the minimods -rep this guy instead of guiding him through the right path.

Baitable II - March 9, 2017, 1:24 pm

Yea, I honestly don't even take multi rep seriously any more, in my case my other acc I lost the GAuth to and got repped for being a multi, and on the other one ebook sellers which I pissed of called me a multi, don't take it seriously :)

~Jay~ - March 9, 2017, 1:24 pm

Apparently he at least represents the other guy who negged him...

This whole thread seems to be nothing but a empty claim combined with a reputation complaint. OP provides no proof of harassment, and VBS didn't abuse the reputation guideline.

You are the cancer I referred to back in 2013:

Read through your whole thread, and I get where you're coming from on this one. You seem to focus on new members a whole lot, and not upgraded ones, so to remind you, if ANY member posted a thread about how he/she is upset about a negative reputation and whines to the community, they will most likely be negatively repped. It's not l33t and ub3rs thinking they're superior over new members (Can't talk on behalf of everyone on this forum), it's people stating their opinion with the reputation system. Rep complaints are generally frowned upon, it doesn't matter who you are, and the reputation system has been put in place for upgraded members to state their opinion freely in a open community.

Rep complaints are generally frowned upon, it doesn't matter who you are, and the reputation system has been put in place for upgraded members to state their opinion freely in a open community. I think I've had some more years over you to understand how the rep system, this is also explained in my thread. I do understand how it fucking works, you do not need to explain.

You seem to think it's completely healthy for community growth that people like you use their powers (let's call it STATE THEIR OPINIONS so you don't complain) in this fashion, hence why I think you are the scum of this forum. If you have not understood this yet I'm afraid I won't try again, I am done with you so do not even bother to reply.

Wires - March 9, 2017, 1:46 pm

Yeah.. Let's keep this thread on topic. As TheVBScript has you on his ignore list, pretty sure he'll no longer be harassing you. Ignore it, this is an online forum don't take it personal. As for the rep, a thread like this causes people to -3 you. His rep is also valid. We recommend you take the time to

read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
