As those who follow my Instagram may know I crashed my Mustang GT a couple months ago.

Here is my replacement...

Spoiler ([Click to View](#))

What do you guys think? It's a SRT-8 392 Hemi. Has 470 HP and 470 lb torque. Does zero to 60 in 4 seconds. I had the car shipped from another state and just arrived a few days ago.

Lana Del Rey_ - March 9, 2017, 2:50 pm

Replacement :O Awesome looking car!

My Uncle has the Scat Pack edition, shit is quick.

Charger - March 9, 2017, 2:50 pm

That's a nice paint job. Don't die with all of that HP.

I prefer Charger's.

Dope! Gotta take that out to the track for some fun! Can't wait to get an awesome car haha

Eagerkid - March 9, 2017, 2:52 pm

It looks very nice, I dont really enjoy the color but its not my car of course. Probably a better ride than my Nissan versa and sentra I

grady - March 9, 2017, 2:52 pm

Actually one of my realistic dream cars, along with a 2015/2016 model of Camaro.
I'll probably end up getting a Camaro after I get my license, though.

If you find the right car it's worth it. Like when you spend quite a bit of money on a new car you don't always find the right one local.

Omniscient - March 9, 2017, 3:48 pm

Quote:any reason you had it shipped from out of state? instead of buying it locally? alot of my friends have done this as well with there cars never understood why though.

You can often get a car cheaper through sites like Carmax.com and have them shipped than if you buy locally. You also get a much wider selection. This is the type of car that doesn't get sold very often and the Crazy Plum purple paint jobs are rare. There was only 1769 challengers produced that year with the color, even less on an SRT-8 392 Hemi.

Quote:I'll probably end up getting a Camaro after I get my license, though.

Don't do it. They are crap. Never met a Camaro owner that was happy. They are cheap cars unless you get the SS. And their cabin visibility is terrible.

Quote:Have you had a chance to take it out somewhere and really open her up yet?

Yes, hit 120 but I need to bring it to the track to really open it up.

Quote:Mind if I ask how much you paid for it?

Let's just say I got an amazing deal. It's from a friend who has like 7 (now 6) cars and buys them

TRAUMA - March 9, 2017, 7:13 pm

That is so sharp my man. I have a Ram 1500 ThunderRoad package, it also has a Hemi.
Be safe, hemi's are one powerful motor.

I'm selling/trading my truck for a blacked out 2011 Challenger. It has some nice exhaust, two 12" subs in it etc.

It's nice as hell. Are you into any mods like exhaust and such?

Omniscient - March 9, 2017, 8:19 pm

Quote:Only bad thing is you got an automatic.. lol
True, but it's technically faster than the manual. I personally would prefer a stick.

Quote:Do you plan on doing any upgrades, Omni?
No real need for it. It's an SRT 392 Hemi. As a stock car it's amazing direct from the factory. It has every optional upgrade.

Actually the muffler could be louder. My GT sounded nicer. But I prefer to keep it stock.

Get a convertible, your head will probably be right at the pillar or above with the seat all the way down ?

See that car just isn't made for me.

I've driven a challenger and it has way more room for my big ass.

Zeke - March 10, 2017, 12:06 pm

Looks like a delicious piece of metal.

Guideelk - March 10, 2017, 12:11 pm

Then again some call me a brand loyalist ?

SUI-3183372 - March 10, 2017, 12:57 pm

Needs more manual transmission. Other than that, it's my dream car. I was ready to jump the gun and buy one before legal issues arose.

Career - March 11, 2017, 2:49 am

Love the color, so unique. You shouldn't went with the hellcat instead.

Gem - March 11, 2017, 2:51 am

Grizzlies - March 11, 2017, 11:22 am

Interior is like mint fresh all over. Like a brand new car for a 2013. Like how you take care of it

Mr. Awesome Guy - March 11, 2017, 12:02 pm

b?xxy - March 11, 2017, 11:21 pm

Sexy car.

I personally like the really nice Chargers, they've come a long way.

#Skyline - March 11, 2017, 11:54 pm

That's a mint car. You also have subs, I wonder what beats you jam too when driving.

mervin338 - March 12, 2017, 12:49 am

It's 485hp and 470 pound feet of torque. I've driven one, so I'm a little familiar with the model. Out of curiosity, what made you choose the SRT over the Scat Pack? I personally prefer the SRT, but mainly because of the suspension settings. Truth be told though, for most street cruising the Scat Pack model will suffice.

2013's had 470HP. I bought this car as a deal from a friend so it's not like I had a choice between SRT or Scat Pack. I'm almost surely going to get a Mustang again once this has 10-20k miles and I trade it in.

Acm3 - March 12, 2017, 12:19 pm

Fantastic replacement with the exception of purple. ERROR :)

Corpse - March 12, 2017, 12:26 pm

It's automatic though... Lol.

Apocryphon - March 13, 2017, 6:39 am

Nice looking car, I like it. Plus it's automatic transmission so it's way sexier.

Ammu - March 13, 2017, 6:53 am

It's a pretty nice replacement, really nice engine block. I'd prefer chargers tho and any mustang in general.

On my Mini I think I do 3-4k a year myself and on our main car we do about 8-10k a year. Vegas is sort of compact. You don't normally have a lot of distance to drive that frequently.

Hacker X - March 13, 2017, 11:24 am

should of get a hellcat ?

Tohka - March 13, 2017, 11:26 am

That paintjob looks really nice. Also, if I owned that car I'd get the window tinted.

Realistically I wouldn't want a Hellcat. It's way more HP than you should have on the street for a daily driver. It's a gas guzzler, will cost more to insure, and may attract a car thief. Also, it's at least \$20k more to buy a Hellcat.

Maybe you should get a Hellcat.
