Thread: [\[Community Alert\] scorpi0n lying, blackmailing asshole. uid=2543360](#)

Slavoj Žižek - March 10, 2017, 12:52 am

Hi, I should have really released this A while back because of the constant harrasment.

This is about :

<https://hackforums.net/member.php?action=profile&uid=2543360>

Anyways, It started when I decided I wanted to sell my old crypters source to try and make A bit of money for An school trip to Africa - [HERE](#)

Take note that I never once in the thread claimed it was FUD and I even said I will not be offering ReFUD's

I did not seem like anyone was interested untill I recived A Privnote link in PM from sc0rpion

The note is now gone but It went something along the lines of "Ill give you \$180 for Crystal Crypter source."

I though cool! But then I recive A PM back from him (in the img above) saying "make sure everything working and fud ty"

WHAT? I never claimed it was FUD?

So I sent him the source saying Its probably not FUD, Because It was not in the original deal I thought It would not matter.

So he said that he will send me another \$20 to FUD it, showing that he knows it was not in the original deal - otherwise he would argue that I told him it was FUD or something.

So I though I could get another \$20 out of it I messaged mr.zar0 on skype but [THIS](#) is how that turned out

He starts getting really pissed off that I got scammed and apparently "we agreed in Privnote"

But the thing is why would you send it in privnote if you did not just want to go back on your words?

Then I PM him telling him what I thought

As you can see he is blatantly blackmailing me.

At this point I just wanted to give this guy his money back, just to stop the harrasment and blackmail

He pm's me saying he wants a \$200 refund

I tell him that he never paid the extra \$20 for the ReFUD, so he is quite obviously lying right there.

So I just want to make the money to give it back to him, for him to leave me alone

I begin talking to people on discord and people at school, everyone is telling me the same thing :
"It was not in the original deal, stop being A pussy and tell him to fuck off."

So I did, but a bit nicer than "fuck off"

also he is claiming, that he never attacked devs before, just ask deluxe...

DELUXES SIDE :

<https://hackforums.net/showthread.php?tid=5421378&pid=52626345#pid52626345>

ALSO IN MY CURRENT SALES THREAD

APPARENTLY I PM'ed HIM MANY TIMES SAYING IT WAS FUD? POST THE SCREENSHOTS THEN?

AS YOU CAN SEE, QUITE A FEW OF HIS TRANSACTIONS END WITH A DISPUTE.

(since the images are not too large I did not bother to put them in spoilers)

tl:dr :

sc0rpion will lie straight to your face

sc0rpion will blackmail you

just don't deal with him, almost everything that he has done on this forum has ended with A dispute.

Thanks for reading my thread, I hope to get this solved.

?

You are a poor biz man yourself. I did not read all your thread. I saw that you gave him the source even when he asked you to fud it and send it to him. At this point you had his money and you had your source, so you had all the cards. You could simply refund him or ask him if he wanted the source as it is.

It seems like you wanted that money bad.

I wanted to go on A trip to africa for school, Its 4k - I want to help as much as possible.

You stuck the source to him. He thought it was FUD, i can tell. You could have prevented all this asking him if he wanted the source as it is or refund him. OR agree at a higher price to refund it for him because you needed that money. ?

ForceJew - March 10, 2017, 1:26 am

Everything that blezzedd said is true.

He never said that it will be fud not publicly nor privately.

GL With this:)

My opinion I do agree with that being blackmail in a way, and this is the correct place to post this.

I see enough proof with this argument.

Also don't send the money until you both agree with something, He said make sure fud once you send it like? come on lmao? They both didnt say that before the payment.

That's like buying a gun and paying and saying AFTER the fact "make sure its loaded" Like you need to agree with that before you pay.

I would consider that A threat. That's not really even blackmail LOL. You're just a pussy. Just refund him if you can't FUD it. You guys agreed on a new deal for FUD and you failed to provide.

CodeineCrazy? - March 10, 2017, 12:58 pm

so your not going to give his money back due to "verbal harassment" in my opinion your the scammer here.

???? - March 10, 2017, 1:00 pm

way too long not reading whole thing, anyways you didn't fulfill your promise

the deal was in privnote, I said I wanted it FUD. u confirmed that by giving me ur payment info. obviously ur going to deny i said it was to be fud bc it was in privnote but u further confirmed you were supposed to deliver it fud.

"I have started the reFUD and I can complete it tomorrow since I was not expecting this and I had homework planned for today

I have got it down to 1/35 I will eliminate the final detection tomorrow"

"I will deliver it FUD to you"

"If I sell my new crypter you will get your \$180 back as soon as I make it."

etc etc etc.

you're such a pussy making yourself the victim when you are the one who scammed LMFAOOO

<https://hackforums.net/showthread.php?tid=5429297>

this had nothing to do with the deal. the deal was a month after u closed the thread, completely

unrelated.

ive been waiting 4 months for my refund, being very patient and reasonable. i think its time u refund me now though, this is getting ridiculous

also deluxe is retarded he was always dramatic and threatened to leave the project thats why i wasnt taking him seriously when he was throwing another one of his fits. he ended up running off with like \$800-\$1k in our BTC wallet, half of which was supposed to be mine.

i dont think asking for a refund is "constant harrasment." lol

you failed to deliver, simple as that. and you made a deal dispute on me LOLLL

"I did not seem like anyone was interested untill I recived A Privnote link in PM from sc0rpion" <<< lie

you closed the thread because you supposedly sold it

1. Why would you send the offer in privnote? we did not exchange any private details?
2. I can change my mind, since it being FUD was not in the original deal it does not matter. (Neither me or you can prove the original deal, once again WHY PRIVNOTE?)
3. Ofcourse the source sale thread has to do with the sale, how else would you have known? Since we never contacted before except from the time you asked me for my byte() to bitmap code?
4. I would class PM'ing me almost every other day or so constant harassment.
5. I'm sorry for wasting your time and pissing you off, but you see IT WAS NOT IN THE DEAL.

This is actually funny, people just have to read the PM's - Quite far from patient.

No I did not.

Sickness - March 10, 2017, 1:49 pm

Im with Blezzedd this time.
Sickness.

FatStacks - March 10, 2017, 2:11 pm

Throw back to when I spoke to him. He was super immature.

1. privacy? the deal was repeated in PMs anyways so didnt matter.
2. it was, once again you lying.
3. because u had a sales thread for the crypter. i wouldnt have purchased it if i saw that thread and saw the reply saying you already sold it. you obviously double sold it so you scammed another person aswell. i wonder who else got scammed by u.
4. we only have 9 PMs in the last 4 months. once again you lying.
5. if you are sorry do the right thing and refund me to put this behind us
