Hi all,

I'm a watch fan. I have a few Citizens (slyhawk, blackhawk) and a GShock.

My favourite watch I own is my F1 Tag, see image below.

Curios to know what everyone else has? Be impressed to see some nice ones, anyone got an Audemars Piguet/Cartier/Rolox/Tag? Do some photos!

Yes indeed. Audemars Piguet have some truly awesome watches. Check out Hublot, they have some nice ones. Not such a fan of Omega, Breitling though.

I saw a proper nice bespoke AP watch when I was in Harrods last, no price tag though!

I'm wearing a Swiss military Hanowa right now. It's my favourite watch pt.

I don't own a watch. I check the time using my phone. I wouldn't mind having a nice watch though.

Some knockoff Calvin Klein one from Bali. Considering I am not a huge 'accessories' person I think it looks nice.

Moto 360 2nd gen because it does more than your watch and others.

I have just a few cheap ones that look good though Longbo mainly.

Would love to get my hands on the 5th they have a good product bit pricey though and a bit "exclusive" aswell since they open shop 5 days per month.

I've been using the Sony Smartwatch 3 for a while, and it's really useful for my everyday life.

Shame it didn't get the Android Wear 2.0 update though :(I might have to consider switching soon.

Notice there are some smart watch owners. I've been tempted to get a apple watch or maybe a moto watch, but it just damn well isn't the same. Seriously no one on here with a banging watch who can take a pic?
