Work is unfinished.

Can we all together generate ideas how to finish it??

Thanks ?

Well.. Im looking for suggestions, how to fill all blank part ?

To be honest it looks low quality. Everything looks blurry minus those smaller circles on the top corner and the birds. Aside from the LQ look it is a nice composition except some of the landscape lighting doesn't make sense.

I love the scheme and the white background, however the actual picture itself looks blurry/low quality. Maybe that is due to the upload, I don't know.

Oh, k.

I gonna remove blur :D My bad, was testing with blurs, but forgot to delete.. :D

Thats really cool except I feel it could've been more blending on the bottom as above says.

Wow this is reminiscent of double exposure in photography. I agree with the others, the photo is a bit low quality as it shows a lot of blur and fall off.

Everything is said already, but you should keep your work up !
