He is a legit guy, maybe he is not well organized enough, but I am sure he is not a scammer. I believe you will get the money back.

He said he had some real life problems and he wasnt very active so i decided give him some time before i post the report.

Hey!

Yeah, I can't say I scammed him although yes, I still didn't send him money. It was cause of bad timing I guess, I got a chargeback about an hour after Deliverer sent me BTC so I can't pay him

back, but I promised I will pay him back as soon as I start my business again which is today.

I agreed with him that he should open a report, I hate scammers and people who get away with it and trust me, I'm working as hard as I can to pay him back the money I owe him.

This will remain opened until I pay him back, period.

Seems like you have both reached an agreement, very relieving to see a dispute handled like this. Good job fellas.

Cyam - *March 18, 2017, 3:56 am*

Hello,

I have just sent money to Deliverer's Paypal to resolve the dispute. As I said, I'm not a scammer, just had a bad timed deal. Hopefully this won't cause any problem with my future deals.

Cheers everyone. ?
