Thread: [dyncheck.com Runtime AV Checker](#)

DarkMove - March 10, 2017, 7:46 am

[dyncheck.com](#) - Runtime AV Checker

[dyncheck.com](#) is:

An innovative and fully automated online service of extended Antivirus check of your files. Checking proceed with execution on real PC on a real OS Windows system and with a working Antivirus software (Internet Security) with the subsequent Antivirus detection report of results. Result of check will be reported in handy and informative view with full information of desktop screenshots on different time intervals and Antivirus' detection alert windows preview

The example of Report:

The example of popup image on preview clicked:

The example of a proactive detection when a doc file with macro is being run:

The example of a screenshot of a desktop while a file is being executed :

And even more [dyncheck.com](#) is:

? Ability to check your files on different detection types: static, dynamic, proactive, cloud and memory detentions.

- ? Ability to check your files with execution and testing for workability on different OS Windows systems. (from XP to Windows 10 (both x86 & x64)). **
- ? Ability to check different file types: .exe, .doc, .docx, .xls, .xlsx, .pdf, .js, .jse, .vbs, .vbe, .html, .htm, .mht, .hta and .ps1.
- ? Ability to check all the steps of working of documents with macro .doc, .docx, .xls, .xlsx and JS, PDF and others. (By checking for all the steps, we mean execution of your file, running macro and all future actions of it).
- ? No samples distribution.
- ? Ability to increase time of check up to: 120, 180, 240 seconds.
- ? Ability to upload your files via link, you need just paste your link into the upload panel.
- ? Ability to select any of Anti-viruses or Windows systems and pay only for the selected ones.
- ? Ability to check your files with\without internet connection or use IP and domain whitelisting to block all other output traffic.
- ? Ability to set Zone Identify option for the checking file of NTFS thread .
- ? Ability to download logs from DebugView of test machines. *
- ? Ability to check office document files (.doc\docx, .xls\xlsx) with ActiveX (OLE Object).
- ? Ability to automate checks with our API.
- ? Ability to share your reports with your friends, or you can save reports to PDF or JPG.
- ? Informative reports with popup screenshots of Antivirus detections and screenshots from desktop of testing machines.
- ? Undetected environment : our testing machines pass Pafish tests.
- ? User's system imitation : common different software installed on testing machines (Microsoft Office, Chrome, Firefox, WinRar, Notepad++, Adobe Reader, Adobe Flash Activex, Java SE, Net Framework, VC runtime 2008-2015).
- ? User's file system imitation : on testing machines we put common different file types (doc, docx, xls, xlsx, rtf, png, jpg, rar, zip, dll, exe, txt, mp3 and etc.).
- ? Transparent plans: you can pay [per check, daily, weekly, mounthly or VIP plans](#).
- ? Ability to get xmpp notifications of start\end of checks and other actions.
- ? Ability to pay with Bitcoin via our merchant. Your balance will be funded automatically after 1 confirmation.
- ? Handy and informative the history of checks.
- ? Referral program 30% will be replenished from the selected plan to your balance.
- ? Secure (isolated) automatic Antivirus database update in every 4 hours and the statistic of updates.

Plans:

Actual prices can be found on dyncheck.com/tarifs.

Important!

Temporary the registration will be available without invite codes.

And all check options will be available on all plans:

Footnotes:

- Checking of a file with switched on Internet connection is unsafe, because the requests to AV's servers are not filtered at the moment.

- Ability to download DebugView logs is available when a user is logged in only.

** - Test of a file workability on OS Windows will be available later.

Reports examples:

? JS file check: <https://dyncheck.com/scan/id/baab19043affc5a8998f809fe40a88ed> (Increase timeout and internet connection options are used.)

? Doc file with macro check: <https://dyncheck.com/scan/id/38c03a77dfef640972c5aec0ba3df9c0> (Increase timeout and internet connection options are used.)

? The report with DebugView logs:

<https://dyncheck.com/scan/id/87e9f45717e13f304ab5f00a150808f0> (DebugView logs option is used. This is available only for registered users)

Baitable II - March 10, 2017, 7:50 am

See you took over it from Codufuser :o

Looks like a nice utility, would be very useful in my future FUDness endeavors :)

Sc?rf?c3_ - March 10, 2017, 7:53 am

Vouch for my Bitch DarkMove !! Long time friend, cool person, hi quality.

Sickness - March 10, 2017, 7:55 am

This looks so good, good luck with it.

Valeant - March 10, 2017, 8:30 am

Looks amazing! Does this test runtimes on Windows 10?

Mitlar - March 10, 2017, 8:33 am

Vouch for this service used it before and it was great.

DarkMove - March 10, 2017, 11:59 am

(Mar 10, 2017 09:30 AM)Valeant Wrote: [\[CITE\]](#) Looks amazing! Does this test runtimes on Windows 10?Yes

Thanks guys,

Videos will be posted soon

He didn't take it over from me?????

My service is still running????

VirtualMon3y - March 11, 2017, 1:25 am

Great to see another quality runtime scanner out there.

DarkMove - March 11, 2017, 10:54 am

I will do full Runtime Scan to first 3 Crypter owners

or with the option you like

must have Sales Topic and own Crypter

Cat Warrior - March 11, 2017, 11:14 am

this seems like a copy of codefusers service. op come up with something more original :\

xHeaven - March 11, 2017, 11:17 am

I didn't know about codefusers

FYI I'm part of DynCheck

dyncheck existed before chk4run. At least before it was posted on HF. Granted it is expensive as fuck compared to the chk4run.

DarkMove - March 11, 2017, 12:04 pm

first Cryoter coder xHeaven

Free Scan

The report

<https://dyncheck.com/scan/id/6989660d2220e8dead31f6d432221900>

Still BullGuard Internet Security scanning it may take up couple more minutes

Nice job

Universe_X - March 13, 2017, 12:14 am

Plz explain the prices to me. I wanna spend the \$9.5 btc price but I don't understand what I get from

it. How many Av's will be available for \$9.5? How many scans can I do with it? How long will it be active? 1 month? Plz, the pricing is very unclear..

DarkMove - March 13, 2017, 1:14 pm

you can chose one AV for 0.50\$
so all depends on your need

dam I wish this service was free. Then crypter sellers would no longer be able to scam ppl.

romantic179 - March 14, 2017, 12:03 pm

this thing has to distribute the scans....

am i right?

xHeaven - March 14, 2017, 4:18 pm

(Mar 14, 2017 12:03 PM)romantic179 Wrote: [\[CITE\]](#) this thing has to distribute the scans....

No, you aren't. This just scan your file at runtime with/without internet connection (optional), but never distribute samples.

MemoryLeak0 - March 14, 2017, 8:05 pm

502 bad gateway. Hope Ill come back soon.

dyncheck - September 21, 2017, 9:21 am

Hello!

Service works fine and stable. Maybe was one second connection problem.

Taranis - September 21, 2017, 10:36 am

The prices on this are outrageous ! You would probably get a lot more signups if you lowered it to something reasonable ...

n0\$f3ratu\$ - September 21, 2017, 11:16 am

(Sep 21, 2017 11:33 AM)Pir?myd Wrote: [\[CITE\]](#) Glad I'm not the only one who thinks so.
Get your own VMs to make your own runtime videos then.

TorJacketo - September 24, 2017, 11:06 am

(Sep 21, 2017 10:36 AM)Taranis Wrote: [\[CITE\]](#) The prices on this are outrageous ! You would

probably get a lot more signups if you lowered it to something reasonable ...Agree. But I think they raised prices to support such infrastructure.

Im too lazy to start and check all the vms myself, but \$219 per month is a lot ?

It would be good that the unused checks moved on to the next month, rly ?

Delirium™ - *September 25, 2017, 8:04 am*

Is this even an active service?

I added \$10 to my account almost 9 hours ago, confirmations are 51 now and I haven't received my balance. Your payment page says that it needs 1 confirmation to add the balance.

TorJacketo - *October 1, 2017, 8:37 am*

I added \$10 to my account almost 9 hours ago, confirmations are 51 now and I haven't received my balance. Your payment page says that it needs 1 confirmation to add the balance. Try to write their support dyncheck@exploit.im, dyncheck@dlab.im

I had the same problem a week ago, but it was solved quickly ?
