I was expecting a PowerPoint download but instead I received a docx file with 19 adfly links for the 19 parts to the presentation. I wouldn't mind if it was 2 - 3 but 19 is a lot. I understand why they are in multiple parts but surely you could just put them in a rar or zip file? Apart from all of the bad things, the design is easy to read, pictures (in case you cannot read) there is also a TON of stuff to read so I think that this is a well made presentation. Conclusion; if you want to learn about marketing and don't mind waiting through 19 adfly links then I recommend this. I will read the whole thing and I will edit this on my final thoughts.

Instead of doing all the work of changing everything (because this was once free) I decided to

make it \$1.99. I could go through and do all the work of changing everything, but you have to remember time is a limited resource so I would have to then charge it around \$3.99 etc, so I thought it would simply be better to just charge 1.99 and keep the ads on it (which I understand was a mistake, I should have done it but when it was created I thought this was the best way to see clicks and traffic. I am not cashing in the adfly revenue)

Thanks for the review though I appreciate it

No problem but you can use goo.gl to see the amount of clicks
