Hi

Im seeing a lots of ebooks that are not stickied in the premium market place .. but normally there is a section made for it(ebook bazars) so is it normal that we can find a lots of ebooks in the premium market place ?

Ps: I'm not talking about the stickied one.

Thanks

Yes, it's normal. Omni said he won't force ebook sales in ebook bazaar, they can be sold in other section of the marketplace, e.g. premium sellers section.
