Welp I haven't seen this method on other places or anyone selling it.

Method

7/10

The method is very easy to do. it doesn't require a lot of knowledge, and it doesn't require any investment at all. The only part where you need to effort is after you get the money.

Price

6/10

Uhm I think the price is okay considering he will help you via TeamViewer and he is very friendly and patient when he help you. If you really put effort on this you can make easy money daily.

Support

10/10

The seller is a nice guy and he will offer the support and assistance if you needed any help.

Overall

7.5/10

The Ebook is not so expensive, the method is very easy, and OP offers support if needed. I would recommend buying this ebook if you want to make money fast and very easy(every time you do it you just do the same thing).

Originality: 9/10

To begin this review I've never seen or heard of the method used in this E-book before and I have to say that right now this is incredibly unsaturated. As it's unsaturated there is a lot of money to be made if you're smart. This can be automated.

Accessibility/Understandability: 9/10

I understand this method perfectly fine and I believe anyone who is capable of reading fluently in English can too. OP offers support so if you feel like you might need help reading through this ebook I recommend you purchase the premium package.

Logistics/Method:8/10

This method is guaranteed to make you your money back and as it can be automated you can run this method 24/7. If you're smart about how you use OP's method you'll only have to "work" for 1-2 hours a day.

Price: 8/10

The pricing is somewhat fair. I was expecting more but in all honesty i'd rather have a short e-book that works than a 500 page e-book that doesn't make me money.

Communication/Support: 10/10

The seller of this ebook is a kind man and will answer any questions prior to you buying the ebook. He also gave me tips on how I could automate and expand.

Overall: 9/10

I'm definitely going to have to recommend this ebook to any E-Entrepreneurs who want to start making money online or anyone who is already making money online. This is a great primary/secondary income for anyone who would like to make some quick fast cash.
