Hello Everyone, I'm selling my method on how you can get yourself Spotify Premium on your account without actually doing much.

- No cracked accounts
- No cracked Credit cards
- Nothing that will get you banned

What you'll get:

1 Year Spotify - 30\$

1 Year Spotify Family - 45\$ something

*Family includes 6 premium, 1 your own, 5 your friends and family.

You can sell the slots and earn money just like I do! :)

Price : 25\$:)

With guide : 35\$:)

Payment Method : BTC :)

If you have doubts before purchasing hit me up. I will actually show it to you. :)

THANKS!

I won't be providing vouch copies, but yes, I would provide subscription to your account for a month using the same method :)

I'm really not interested in sharing method with anyone. :)
