I did not have high hopes for this since I have seen 1-2 amazon methods here and they were both fraud, bullshit and saturated.

However this method is not fraud and is legal as advertised. It's also advertised as never seen and that is true.

At least I haven't never seen this kind of method and never thought you could do this. Its really easy method to understand (there are even video tutorials but in my opinion they're useless since the method is easy).

You need investment but when you spend the investment you will almost instantly make profit.

I promised to Oliver that I will try this method and I kept my promise.

You have to make Amazon seller account for the method to work and you can go with the free plan like I did.

Does not require hard work which is good in my opinion, method is not autopilot but it should not matter.

There is bonus content + bonus amazon guide. The bonus eBook is a method I know, but it's explained really well and expect to make good money from it. (I did not try it. I only tried the main method but the bonus guide seems promising as well)

I tried the method, I invested and I earned money , simple as that.

EDIT: I didn't realize this before but this method takes some time to set up if you're new with amazon. I had a normal seller account so I used it fast.

Proof:

I basically got an sale on Amazon (sold an item) and got the money. I can confirm that this method works. Not 100% is profit but it is a lot. You will make a lot of profit with this however. PM me for more info about the profits.

You will understand when you buy the guide. Not sure if I can reveal more, so I will leave as it is and I will continue using the method.

Thanks for the method OP. Appreciate it.

I did not investment much to this since i was not sure but my investment was 20\$ but once I invested it i made quite decent profit with the method. surprised that this one actually works and i suggested op to raise the price since this is actually a good method to use.

i already have \$ on amazon balance.. will get more balance with the method and withdraw after. Big vouch for OP and his amazon guide its legit. I will take a look at the bonus content later it seemed good aswell! ?

op is providing a nice support. quite fast and helpful! it took some time to set up everything at first but then rest is easy and hassle-free i must say.

The method:

Well im not that familiar with amazon but i had never heard of this kind of method. that's for sure. it surprised me how simple the method is in the end. no hard work required.i can guarantee everything advertised is true and i took a look at the other reviews and there is some points where i agree with them

examples:

- 1) price is too low : i agree with this. this is my opinion really unique method of making money with Amazon and i think op should sell this at much higher. but its up to him.
- 2) method actually works : yes it does! i didn't have much time to put into this but i basically made a listing on the amazon using the method and i got about 70 pounds and i was using the uk amazon. what i understood you can use any amazon site for this. method is fairly simple as i said earlier, anyone can do this. was really surprised i was actually going to earn even 1\$ from this. was quite happy and Oliver can probably confirm that from our messages ?
- 3) support is good : i did not need that much support so im not 100% sure if its perfect but Oliver is really nice and looking at the other reviews the support is good.

Basically everything work as advertised and I made money already.. just need to wait a bit so i get bank transfer done. I will give some money to Oliver once i get the transfer as thanks to Oliver. if he just wants. will for sure plan to use the method again and make cash with it i don't see any problems how i could lose money with this.

basically i vouch for it.

(Mar 18, 2017 08:25 AM)Lads. Wrote: [\[CITE\]](#) I have purchased this product 3 days ago and I am very overall satisfied!

Oliver just updated with a new method and gave it for free since I have the ultimate package with free updates.

The original method is great, I have used it like 3-4 times now and my balance is easily over 200\$. Not everything is 100%-profit but you know I have earned more than the cost of the original eBook and I am very happy with that.

The bonus method has tons of content and stuff I did not know before.

The new method he just added today haven't tried yet, but it seem really promising I can assure you that. It's pretty similar to the original method, but maybe ever more profitable.

I can vouch for the product itself and the method is guaranteed working. Big vouch for Oliver, he also offers amazing support. No complaints at all!

This is a phenomenal product, you can make what you pay back easily!

I have nothing else to say to be fair, 20\$ on profit. I can see myself profiting a lot more in the foreseeable future.

Method just works, support is great. I have nothing bad to say about this, just recommendation to seller that price should be higher and maybe sold at limited copies.

Glad I purchased!

(Mar 19, 2017 03:59 PM)The Ebook Giant Wrote: [\[CITE\]](#) Okay so i purchased this some time ago and here is my review..

About the method at hand: It is indeed genius and something that I've never heard of before. It is indeed very simple after you setup everything needed and you won't be spending much time maintaining it.

If you find yourself to have a question or concern regarding the guide (which I'm sure you won't) Oliver will be there throughout the day to assist you in the best way possible. He always answered my questions, and can I mention QUICKLY, and gave me quality mentoring which helped me learn a lot.

I made a solid decision when I decided to buy this since it has a lot of info about Amazon and I for sure did learn a few things about it that will be helpful in my journey. And not to mention, made me some money as well in the process!

I can't see why YOU as the average joe wouldn't make money with this. I'm currently awaiting a \$300 bank transfer to go through my account as I'm writing this which I'm super EXCITED about. Just in a few days I have that in my balance but it did of course require some investment but not that much. Even the customers who bought this know about that!

All in all, I have profited and made my money back with this method and I'm really happy that I bought the eBook. Can recommend it to anyone, also if you have any questions I can answer them!

Thanks OLIVER PRODUCTS for a great ebook!

The method is really simple and you probably don't need any mentoring but i needed it cause i had some problems.

i have been "running" the method for around 2 days and my AMAZON balance is already close to 360 € (Euros)

And you can see a picture here im getting my money guaranteed in about 2 days

THANK YOU SO MUCH OLIVER FOR THE HELP! so thankful i actually bought this since i was quite skeptical at first because i have heard e books dont work, just decided to pull the trigger on this one and i am really happy..

Dont expect to get 100\$ in 1 hour or some bullshit like that, just put work in and you get money! When my money comes i will be investing a little to the bonus method which seems really good too!

this was my completely honest review of this product. Can recommend this product to anyone, it works as described and will make you money easily!

All Amazon methods I have seen here are BS and most of the time just SE or some BS methods.

So this is 100% not SE or refunding? It's hard to believe this is perfect to be honest. Anyways I see you provide 3 vouches so let me know if you want me to review this.

As I said I have seen other amazon money making methods here. I have some experience and could leave a detailed review and also try the method.

I did not have high hopes for this since I have seen 1-2 amazon methods here and they were both fraud, bullshit and saturated.

However this method is not fraud and is legal as advertised. It's also advertised as never seen and that is true.

At least I haven't never seen this kind of method and never thought you could do this. Its really easy method to understand (there are even video tutorials but in my opinion they're useless since the method is easy).

You need investment but when you spend the investment you will almost instantly make profit.

I promised to Oliver that I will try this method and I kept my promise.

You have to make Amazon seller account for the method to work and you can go with the free plan like I did.

Does not require hard work which is good in my opinion, method is not autopilot but it should not matter.

There is bonus content + bonus amazon guide. The bonus eBook is a method I know, but it's explained really well and expect to make good money from it. (I did not try it. I only tried the main method but the bonus guide seems promising as well)

I tried the method, I invested and I earned money , simple as that.

Proof:

I basically got an sale on Amazon (sold an item) and got the money. I can confirm that this method works. However that amount not 100% is profit.

You will understand when you buy the guide. Not sure if I can reveal more, so I will leave as it is and I will continue using the method.

Thanks for the method OP. Appreciate it.

Thanks for your clear vouch. Was interested in buying and you left a real vouch and not some friend vouch. Appreciate what you are doing.

posting my review now. i received vouch copy hours ago.i must say the method is unique.

its pretty smart method and i can guarantee to everyone here that it will work no matter what. anyone can understand this.OP was kind enough to provide me with a review copy even tho i dont have much high rep, i told OP i will write honest 100% review and try the method if it looks good.

I did not investment much to this since i was not sure but my investment was 20\$ but once I

invested it i made quite decent profit with the method. surprised that this one actually works and i suggested op to raise the price since this is actually a good method to use.

i already have \$ on amazon balance.. will get more balance with the method and withdraw after. Big vouch for OP and his amazon guide its legit. I will take a look at the bonus content later it seemed good aswell! ?

I purchased this ebook today (limited pack) and i can say its a really HQ method. its actually an ebook that works unlike the other ones here.

i agree with guy above with the price being too low. i already made half of my money back that i spent (\$39) in couple hrs.

op is providing a nice support. quite fast and helpful! it took some time to set up everything at first but then rest is easy and hassle-free i must say.

Is any of the following needed/ required?:

Bank Account

Drop shipping

eBay

Physical shipping

And can it be done anonymously?

But other than that, I'm very interested and will buy soon.

Amazon sends you the payments via bank transfer so yes bank account is required.

Can't done anonymously since this is done in bank transfers & in Amazon.

But no one will be able to know your identity expect Amazon so don't worry about that.

I just bought this, it really is as easy as it sounds. Even though I was skeptical about it Oliver spent about 45 minutes with me helping me set it up and I'm impressed so far with the results.

Overall, Oliver is very helpful with any questions you might have, he's very patient.

The method overall is impressive. I'm starting to see the benefits of this already.

Thanks Oliver. Good luck with further sales.

Yes I agree with you many people are telling me this and I've thought of it too to maybe increase price a lot. Many people are telling me this is worth more and should not be sold for such "cheap price"

But i will look for more feedback from customers to see if the price should be raised and copies sold to only limited amount of people.

CodeineCrazy? - March 15, 2017, 12:13 pm

Thanks Oliver Products for providing me with a vouch and letting me review your product. Sorry if my review is late. Here is my review from Oliver's "profit amazon"

The method:

Well im not that familiar with amazon but i had never heard of this kind of method. that's for sure. it surprised me how simple the method is in the end. no hard work required. i can guarantee everything advertised is true and i took a look at the other reviews and there is some points where i agree with them

examples:

- 1) price is too low : i agree with this. this is my opinion really unique method of making money with Amazon and i think op should sell this at much higher. but its up to him.
- 2) method actually works : yes it does! i didn't have much time to put into this but i basically made a listing on the amazon using the method and i got about 70 pounds and i was using the uk amazon.

what i understood you can use any amazon site for this. method is fairly simple as i said earlier, anyone can do this. was really surprised i was actually going to earn even 1\$ from this. was quite happy and Oliver can probably confirm that from our messages ?

3) support is good : i did not need that much support so im not 100% sure if its perfect but Oliver is really nice and looking at the other reviews the support is good.

Basically everything work as advertised and I made money already.. just need to wait a bit so i get bank transfer done. I will give some money to Oliver once i get the transfer as thanks to Oliver. if he just wants. will for sure plan to use the method again and make cash with it i don't see any problems how i could lose money with this.

basically i vouch for it.

I have purchased this product 3 days ago and I am very overall satisfied!

Oliver just updated with a new method and gave it for free since I have the ultimate package with free updates.

The original method is great, I have used it like 3-4 times now and my balance is easily over 200\$. Not everything is 100%-profit but you know I have earned more than the cost of the original eBook and I am very happy with that.

The bonus method has tons of content and stuff I did not know before.

The new method he just added today haven't tried yet, but it seem really promising I can assure you that. It's pretty similar to the original method, but maybe ever more profitable.

I can vouch for the product itself and the method is guaranteed working. Big vouch for Oliver, he also offers amazing support. No complaints at all!

This is a phenomenal product, you can make what you pay back easily!

Happy that I purchased this produt, recieved my first money on the same day which surprises me more this actually works!

I have nothing else to say to be fair, 20\$ on profit. I can see myself profiting a lot more in the foreseeable future.

Method just works, support is great. I have nothing bad to say about this, just recommendation to seller that price should be higher and maybe sold at limited copies.

Glad I purchased!

Okay so i purchased this some time ago and here is my review..

About the method at hand: It is indeed genius and something that I've never heard of before. It is indeed very simple after you setup everything needed and you won't be spending much time maintaining it.

If you find yourself to have a question or concern regarding the guide (which I'm sure you won't) Oliver will be there throughout the day to assist you in the best way possible. He always answered my questions, and can I mention QUICKLY, and gave me quality mentoring which helped me learn alot.

I made a solid decision when I decided to buy this since it has a lot of info about Amazon and I for sure did learn a few things about it that will be helpful in my journey. And not to mention, made me some money aswell in the process!

I can't see why YOU as the average joe wouldn't make money with this. I'm currently awaiting a \$300 bank transfer to go through my account as I'm writing this which I'm super EXCITED about. Just in a few days I have that in my balance but it did ofcourse require some investment but not that much. Even the customers who bought this know about that!

All in all, I have profited and made my money back with this method and I'm really happy that I bought the eBook. Can recommend it to anyone, also if you have any questions I can answer them!

Thanks OLIVER PRODUCTS for a great ebook!

I bought this on 19/3 (Ultimate Pack)

And this is my review:

I purchased using Bitcoin, all went fine with payment and Oliver Products delivered copy instantly. The support is really good, I have already received my mentoring and Oliver literally taught me for 1 hour.. maybe more im not sure. The method is really simple and you probably dont need any mentoring but i needed it cause i had some problems.

i have been "running" the method for around 2 days and my AMAZON balance is already close to 360 € (Euros)

And you can see a picture here im getting my money guaranteed in about 2 days

THANK YOU SO MUCH OLIVER FOR THE HELP! so thankful i actually bought this since i was quite skeptical at first because i have heard e books dont work, just decided to pull the trigger on this one and i am really happy..

Dont expect to get 100\$ in 1 hour or some bullshit like that, just put work in and you get money! When my money comes i will be investing a little to the bonus method which seems really good too!

this was my completely honest review of this product. Can recommend this product to anyone, it works as described and will make you money easily!

Again: thanks for oliver and this ebook! If i missed something on my review, kindly let me know!

Vouch for Oliver, always loved his products.

RS-4 - April 8, 2017, 1:03 pm

Been in contact on Skype, and have just purchased - so far, the communication has been great and Oliver has also assisted me in terms of payment method. Great first impressions, will leave a review soon!

Damn, seriously, I can tell this sh!t works. You always know when something you've got off of HF is going to work - and this is so. Not what I was expetcting in a good way, and the bonus too is excellent.

10/10 | Probably the first think I'm glad I purchased on HF - 'Not Payed To Say This' Ahah, and neither is it some 'friend' Vouch shit

I'll be executing this and updating you with some results. No need to be hesitant, I'm sure Oliver can answer your questions or just feel free to PM me about my results etc.

Investment depends a lot, id recommend to start with 50\$ at least but it depends, there is basically no risks. Low chance to lose any money, this is not gambling this is a money making method, working one. ?

Investment depends a lot, id recommend to start with 50\$ at least but it depends, there is basically no risks. Low chance to lose any money, this is not gambling this is a money making method, working one. ?

Is this being shipped via FBA or merchant?

Also is this buying off of china stuff and doing private labeling?

(Jan 19, 2019 09:13 AM)FujiToday Wrote: [\[CITE\]](#) But why don't you offer refund though ? What if I buy it and despite every effort still fail to make any \$ with it ? Simple. It would be stupid of me to offer any refunds.

The refunds can be abused and I've seen it happen; what if someone makes money with it, but then lies in order to get free money from the refund.

End of the day you're paying for information, a bonus method & method and SUPPORT. If I somehow offered you a refund, you still have that information that costs.

I am not able to remove the information from you, the files or anything. You pay for the information, and that information alone is not worth any refunds.

Hopefully it makes sense.. Refunds are a hassle anyways.

Amazon is based on supply and demand so the same method may not work for the long run. Do you keep your clients updated with products? Or does the method involve finding new products. Interested in buying..

No need to keep clients updated, the method works and has worked for a long time. There is no need to update it.

Its unique method which is easy to follow too. Let me know if you have other questions, but no need to worry about finding the right products etc
