E-Whoring On Craigslist

By: Virtual Reality

According to Wikipedia: Craigslist is a centralized network of online communities, featuring free online classified advertisements – with sections devoted to jobs, housing, personals, for sale, services, community, gigs, résumés, and discussion forums.

As it pertains to E-Whoring, the personals section of craigslist is an absolute gold mine. This small, yet informative guide will teach you exactly how to make money by exploiting horny bastards via classified advertisements.

Creating Your Identity:

Before you go off E-Whoring, it is important that you first create an identity for yourself. The first thing you will need, is pictures. There are many threads around the forum for you to choose from. Browsing the E-Whore section or using the [HF Search Module](#) should do the trick.

Once you have found the necessary pictures, it is time to get a few things in place. It is now time to think of a name for your whore. This shouldn't be too hard. Just be creative.

Next, you should probably create a new email for your E-Whoring project. I suggest [GMail](#), because it does not have any limits pertaining to the amount of messages you are allowed to send and receive in a day. Try to make your email somewhat relevant to your name, or something girly. For example: If you are to make an E-Whore by the name of Nicole Smith, a good email might be something along the lines of xoxNicoleSmith89xox@gmail.com.

Now since you will probably be using PayPal, it is your choice to make a new account for your E-Whore, or to simply use your own account. If you are using your own existent account, make sure to change the primary email. It gets suspicious if you are asking somebody to send money to John@example.com, if you are a girl.

Finally, it is time you create your Craigslist Account. I think this is quite self explanatory, so I will not go into detail at this time. One thing to take into consideration, is the city you choose to pretend to reside in. The best places are usually big cities, like New York, Philadelphia, or Chicago.

Posting Your Advertisement:

This step is crucial to your success as an E-Whore. It is now time for you to post your classified advertisement.

You must start by selecting the Personals category. From there, it is your choice to choose the section you would like to post your ad in. When posting, make sure to have an appealing title. Something along the lines of "Hot 18yr LOOKING FOR OLDER MAN" should work perfectly.

Don't forget to add some pictures from the collection you have gathered at the beginning of the

tutorial. It is probably a good idea to not display any nudes. You should save those for the emails.

Once your advertisement is posted, you should begin to receive emails. Don't be afraid to repost your ad in different categories. Also, be aware that your advertisements probably will be taken down, so be prepared to republish them if necessary.

Your Method:

This part is completely up to you. Now that you have men emailing you, you can do one of two things:

1. Gasoline Method - This is when you state that you are going to come and meet up with the individual, and you ask them if they will pay for your gas. Most likely, they will say yes. When they do, the next thing to do is to ask them to pay for your gas via PayPal. If they say they will cover your gas when you get there, simply state that you need the \$ now because you're broke, and your car is on EMPTY.

2. Pictures - This is another widely known technique. You lead the individual on with sexy revealing pictures, and you tell them that you will give them more.. for a price. From there, you ask them for a specific amount of money, to view the rest of your nude pictures.

Both of these methods are quite easy, and it's a fast way to make a few bucks. Keep in mind to inform the individual that they do not necessarily need a PayPal account to send you money. Letting them know that they can send you it via credit card or other payment option is very important!

Well, this concludes my guide on E-Whoring via Craigslist. I hope you enjoyed it! I would like to give credit to [Sharkey](#), who assisted me in creating this guide by sharing his copious knowledge on the subject with me.

Thanks to everybody who took the time to actually read this entire guide. Feedback is appreciated!

Actually, no. That is not a stupid question at all.

Whether it is legal or not: It all depends on the circumstance.

like what if I posed as a girl who just wanted to "hangout" hmm.. well thats all i would say.. basically and say things like "just have some fun" or nonsense to get ppl to buy the picture pack thingy..

Nice write up OP, be good if you showed your past success through your method.

Let's put it this way: Selling nude pictures of an 18+ to an 18+ is not necessarily illegal.

Asking for "gas money" and then scamming them is. But I HIGHLY doubt anybody would contact the authorities. Even so, they most likely would do nothing about it.

Lol, I know. Somebody once did confront me about how I would buy gas with my paypal account. I have him some shit about having a PayPal "Debit Card".

Other then that, nobody actually questions it.
