Thread: [Signatures Leading Offsite \(Blackhat\)](#)

TSG? - March 14, 2017, 3:32 pm

So i've always wanted to make a TOR offsite forum and have the spooki kids come with me. Is is possible to advertise blackhat forums in my signature or is that just a no no.

think this is a no no my d00d

Description - March 14, 2017, 3:33 pm

I would see it as a no no for you and him.

hunterr - March 14, 2017, 3:47 pm

I dont think it would be too bad.

Id like to check that forum out if you made it

If it's nothing serious or illicit, then I don't see why it shouldn't be allowed. Uhm.. blackhat? No for obvious reasons.

Hack Forums will not stand for the advertising of competing forums in any thread, post, or profile. Competing forums are other forums that have any number of sections dedicated toward hacking such as the ones found here. Some sites may be advertised with the approval of the administrator; contact Omniscient with the link asking where you can post it.

That's going to be a no.

Very very likely a no as dark web discussion is not allowed and you say a tor forum that is blackhat, yeah not going to be allowed.

Wont be a forum. Will just allow things not allowed here like DDoS and SE services.

Anything regarding the Darknet/TOR is not allowed here.

This applies to posts, threads, reputation, profiles, etc..

Quote:Deepweb Discussion

Deepweb is a phrase to describe hidden websites on the internet that are often, but not always, directly related to illegal activity such as child porn, carding, hitmen, and other very illicit material. As such we're not going to allow it here. Not even the slightest discussion of the deepweb will be allowed.

Please read the [Help Docs](#).
