Thread: [Good Burgers You've Had?](#)

TB12 - March 14, 2017, 10:41 pm

So the user Brusk made me hungry after showing some burgers he made so I want to talk about burgers now dammit. What is a good burger you have had?

One I really liked was at a bowling ally right next to where I use to live. The burger was called "The Mad King". It had 3 patties adding up to over a pound, cheese, lettuce, tomato (I hate tomato so I always asked the burger without it), onion, bacon, and two giant onion rings. Very good, here is a pic I took of it a long time ago. They didn't take the tomato off, but I took the pic before taking it off.

My favorite place to get a burger however, is a place called "Twisted Root Burger" which was a 5 minute walk from where I got the Mad King. They have Crocodile burgers, Kangaroo, and some other shit but I preferred a normal burger.

I love getting a double cheeseburger with bacon, extra mayo, lettuce, onion, and a fried egg. They also have wonderful fried pickles with a great sauce. Damn... So hungry....

The snack shack around my area makes good ass burgers that make you have an orgasm in your mouth.

Prophett - March 16, 2017, 3:57 pm

How can one even consume that large of a burger.

Surprisingly I'm not fat, but I stopped using the kids menu at a very early age. I can eat A LOT. My mom always would say I'd eat the horse and chase the rider. I once ate a few pounds of lobster when me, my mom, and my dad went on vacation to Hawaii. His company paid for everything. After I ate all my lobster then some of my mom's. The staff told us they never seen a kid my age do that. Lol, yeah it's pretty ridiculous

I would love to try it just because of the word "orgasm"

I think the question is less "how can you eat so much food" quantity-wise, and more "how can you take a bit out of that without unhinging your jaw like a boa constrictor." I mean ... it's literally too tall to bite. I'd have to attack it with a knife and fork, and feel like less of an American for having done so.

Well, I understand it looks like it is impossible, but keep in mind, the pic of the burger is without me holding it and compressing it. Yeah it would still be huge, but not as tall as it looks there

I think a burger honestly loses its purpose if it's too big to even get your mouth around it.

Quann - March 16, 2017, 8:37 pm

Tbh, my favorite is burger king's whooper. It's so simple but so good lol.

This, I agree.. I mean like "tooooo" big where you can barley bite.

There's an amazing place in my city named Liberty Burger that's actually really good.

I took my dad out to eat one time. We were going around finding places and came across Liberty Burger. My dad wanted to try it because of all the good things he had heard so I was fine with that. I always love burgers. Went way above my expectation, their shakes are amazing too.

That actually looks very fucking good. I wish it was as big as the image size you had to post on the thread. ;)

Well, I mean it definitely sounds weird. But in many countries this is very normal. India is like "you fucking sickos" when we eat a normal burger. Because the cow is sacred to them. China thinks is so weird that we eat cheese. So yeah, I understand it may seem crazy. But it is a matter of what you are grown up around or grown up believing. I honestly would try it, but I definitely am not in a hurry lol

I usually have seen myself as a heavy-eater from time to time but that is nothing compared to you. How much do you weigh?

Well, last time I check I was 225, but I have lost weight. I am 6 ft tall. I am currently a freshman in college, but when I was a junior in highschool, I was actually under weight lol. I was 165

Boost V2 - March 23, 2017, 11:59 am

I literally orgasmed while eating this burger:

https://www.tripadvisor.co.uk/Restaurant_Review-g503790-d2432849-Reviews-Mangetout-Southend-on_Sea_Essex_England.html

It was amazing and only around £7.99 (\$10)

Anyone who lives near Southend go there now it's amazing.

Red Robin has a "Royal Red Robin" which is a burger with a fried egg and bacon on it. Nothing less than perfect.

Goat - March 23, 2017, 1:38 pm

Hardee's got some really good tasting burgers, probably my favorite.

Yumiid - March 25, 2017, 1:53 pm

Anything but McDonalds, fucking overrated greasy shit.

TrotNickson - March 25, 2017, 2:57 pm

Five Guys has KILLER burgers. Wrapped in the foil and all just makes it seem better imo but again, Five Guys is amazing & you know if you're from the east coast.

zSerity - March 25, 2017, 10:20 pm

Place in my town called Christos has such good burgers.

Most places I know that have some amazing burgers are not chain restaurants so nobody would know what I am talking about. I wish I was the type to take pictures of my food and I would share my past burgers. OP, that burger looks pretty awesome would love to give it a bite!

DaCavE - March 27, 2017, 3:50 pm

I love a good cheese burger with ketchup. Usually don't eat fast food burgers.
