Thread: [Silent Monero Miner Builder v2 | Stable | Cheap | Hidden | Small 25 kb !!](#)

Tee Plow - March 15, 2017, 6:45 am

Silent Monero Miner Builder

it's coded in vb.net and has .net dependencies
with a small size of only 25kb !!
and it's a builder so u can have unlimited builds !!

PURCHASE HERE >> [CLICK HERE](#) << - [\$40]

Features :

Startup Install

Icon Changer

Persistence : If user deletes the startup registry key, the miner will write a new startup key immediately

Anti Sleep : Prevent the machine from going to sleep mode

Smart System

Botkiller

Anti VMware

Mutex : This guarantees only one instance of the miner will run per PC

Screenshot :

PURCHASE HERE >> [CLICK HERE](#) << - [\$40]

Markus5412 - March 15, 2017, 6:58 am

Please give me a real answer

You can make money with?

Then why do you sell it?

Mr Kewl - March 15, 2017, 7:00 am

How much pennies can it make with 1k hosts with average CPU setup?

Tee Plow - March 15, 2017, 7:03 am

(Mar 15, 2017 06:58 AM)Lego Wrote: [\[CITE\]](#) Please give me a real answer

You can make money with?

Then why do you sell it?

simply because i don't rat and i make money by selling products and coding !

(Mar 15, 2017 07:00 AM)Mr Kewl Wrote: [\[CITE\]](#) How much pennies can it make with 1k hosts with average CPU setup?

it depend on alot of things , how powerful there CPU's and how much time they are online and the idle time ...

but i will make an example for you

If you have 500 bots, running 40-50h/s (average speed), you will have a hashing power of 20kh/s, earning 1.82 XMR a day, which is about \$32,76 USD if they mine 24/7 !

Iterator - March 15, 2017, 7:38 am

Good luck with sales! Seems like nice product.

Dude this is not Bitcoin mining, it is Monero mining and yes you can make money for it still. How much tho depends on how many machines, their spec, how long they are online for.

Linux. - October 11, 2017, 11:17 pm

How much could I make if say 50k were running this on average?

Tee Plow - October 12, 2017, 12:29 am

(Oct 11, 2017 11:17 PM)Linux. Wrote: [\[CITE\]](#) How much could I make if say 50k were running this on average?it depend on how much time they are online
the average hash rate is 40-50 H/s per pc so with 50k u will get 2000000 H/s
and u will earn 33 xmr per day if they are online 24/7 which is about 2800\$ at the current price of xmr

This thing is awesome! Extremely easy to use! Couldn't ask for a better product than this! I will be

buying Tee Plow's ZCash miner as well.

THIS GUY KNOWS HOW TO MAKE A GOOD PRODUCT!!!! WORTH EVERY PENNY!!!!

Shahenshah - October 19, 2017, 6:00 am

I am very interested but have little to no info.. I do however have a warez site and would be very interested in using this.

Will following work:

- I buy your builder & get good crypter (please suggest crypter available on HF)
- I will use a macro or silent exploit from HF to directly infect vics to D+E it from a offshore server

- Will i need net for this or i can directly infect ? Will i have to re-fud this ?

In that case i will use loader like Gaudox/LiteHTTP and drop FUD miner from there and keep re-fudding every couple days.

I dont want to bug you but can you point me to a good website/resource where i can get info on how to set this up ?

Like which pool to use ? What other things have to be taken care of in this ?

I will buy this asap after i understand few basic points as \$60 is not a lot of money and you have good reviews and i already have traffic..so happy to go ahead with this ASAP..

Tee Plow - October 19, 2017, 11:20 am

neverstop247 - October 29, 2017, 12:33 am

What crypter works with this? And what settings are needed for it to work properly?

Tee Plow - October 29, 2017, 1:05 pm

(Oct 29, 2017 12:33 AM)neverstop247 Wrote: [\[CITE\]](#) What crypter works with this? And what settings are needed for it to work properly?

any crypter that support .net files should work
about the settings just use the startup from the crypter and that's it
