Thread: [I WAS SCAMMED \\$30 BY uid=2365797 or Swift Protector](#)

th3Mistery - March 15, 2017, 7:01 am

I was scammed by <https://hackforums.net/member.php?action=profile&uid=2365797>

THIS CRYPTER IS BAD with his OWNER, HE BANNED MY LICENSE BECAUSE I CAME AND WROTE THE TRUTH ON HIS THREAD WHILE HE COULDN'T ASSIST ME. IF A CUSTOMER IS NOT WELL SERVED OR GOT A BAD PRODUCT FROM A SHOP EVERYBODY IS SUPPOSE TO KNOW. I DIDN'T SPAM HIS THREAD. I JUST WROTE A NORMAL COMMENT TO HAVE HIS ATTENTION.

<https://imgur.com/a/NWZyb>

Swift Protector CRYPTER IS BAD with his OWNER, HE BANNED MY LICENSE WITHOUT REFUND. I TRIED CONTACTING HIM IN PM AFTER PURCHASING THE CRYPTER, I HAD AN ERROR WHILE CRYPTING, I FOLLOWED ALL INSTRUCTIONS AND WELL I USED A LOT OF CRYPTERS IN THIS FORUM AND NEVER HAD PROBLEM WITH ANYONE EVEN WHEN THE CRYPTER IS NOT FUD I DON'T COMPLAIN BECAUSE IT'S NORMAL SOMETIMES. HE JUST BLOCKED MY CRYPTER BECAUSE IT WAS NOT WORKING AT MY SIDE WITH AN ERROR THE FIRST 2 DAYS AND AFTER THERE WAS NO MORE ERROR MEANS IT SORTED IT OUT BUT THE SCAN RESULTS WAS ABOUT 14/38 DETECTIONS AND THE CRYPTER COULDN'T CRYPT NANOCORE WHICH HE AGREED THAT IT WAS WORKING WITH NANOCORE IN PM (HE COULDN'T SAY IT ON HIS THREAD). HE SAID HE WOULD ASSIST ME TO CRYPT BUT HE DIDN'T ANSWER ME IN JABBER.. THIS CRYPTER IS A MESS DO NOT BUY IT.

Please don't write in block capitals. Also, posting that kind of thing under someone's sales thread is considered sales trashing.

If the crypter doesn't work or you weren't given what you paid for, complain to the seller and request a refund.

Please link the seller in question's profile in the original post and place his uid in the thread title.

He can write however he damn well pleases to. I'd be pissed too if some shithead banned me for trying to get support for a non working product. If your contribution to this topic is to complain about formatting fuck off...

People with TOS stating you can't sales thrash me are low life shit heads who know they're pushing garbage and try to minimize profit loss by banning anyone who points that out.

OP has my support entirely. Maybe it's time I start tearing crypters apart again and exposing their shit for what they are. KyleWTF can let you know how that goes for them.

Maybe it's time to rebrand booterdown to crypterdown.

I think if he's serious about getting scammed and wants to have a proper deal dispute then he should format it right. I don't agree with what happened obviously but sales trashing will only get him banned so I'm trying to help him. Thanks for the reply though! ?

bigbronlet - March 16, 2017, 5:47 am

I am NOT going to scam you or run away with your money. Nor did I ban your access from swift because of you asking for customer support. Your access prevention from swift was due to the fact that you was spamming my sales thread and ignoring my messages on jabber totally. if you want i can post screenshots of that but i do not think that is necessary since i want to resolve this and do not create a drama.

First thing, you need to fix up your attitude a little bit and cool down. Especially, kindly do not type in caps. I already told you i will extra days to your license as well for the time you are not able to use crypter for whatsoever issue you are having on your side.

I will resolve whatsoever issue you have regarding swift crypter and crypting nanocore with it as you mentioned. It perfectly works with nanocore.

I sent you countless messages on jabber but your status there is always set to "I'm not here right now" and you never replied back to any of my messages over there.

You basically come online on hf for like 4-5 minutes daily, spam my sales thread and then go offline.

How do you expect me to solve your issue that way?.

I will be waiting for you on jabber TONIGHT as well in order to resolve your issue. Get online over there and I will solve your issue by myself over teamviewer. And if i am UNABLE to solve your issue, i will refund you your payment.

Thank you.

th3Mystery - March 17, 2017, 2:51 am

First it's a big lie bc when you messaged. I wasn't on my pc and when I replied, you directly went offline and yesterday same shit your didn't came online. Show the screenshot of your msgs let's see. So all you can do is to ban someone because I posted on your sales Thread saying that the crypter was not good and no customers care + I messaged in PM before doing that. Well I don't care about the \$30 that's not money the problem is your attitude. Most of crypters owners here when they start getting sales they think they are Kings. The customer still remains a KING. The crypter have a issue when I was scanning I had 14 / 38 then you banned me because your didn't wanted me to save the screenshot. Well i will say it. Swift Protector is the lowest crypter I used here. Now refund me let's see or try to sort out my problem if the crypter is good :)

th3Mystery - March 20, 2017, 12:32 pm

YOU CAN SEE MORE COMPLAINS HERE..

<https://imgur.com/nfCwHl6>

SCAN RESULTS OF HIS SHITTY CRYPTER WITH NO CUSTOMERS CARE OR LICENSE BAD IF YOU COMPLAINS HERE :

<https://imgur.com/rH76q6O>

AND more proof that Bryanboss alias swift protector can't sort out my problem and ripped my \$30.

He messaged me on jabber and when i reply he run away.
