How can you say it is a working version if you don't know if it still deliver well?

And FYI, HexaCrypt isn't selling any loggers here.

Chief Ozowarac - March 17, 2017, 10:59 am

i have tested it is working very well , just that i dont know if

How do you know your victim IP in Predator pain

Invincible Light - December 24, 2017, 2:18 am

Dude, PP is so old, probably detected by every AV out there, get a new keylogger
