What if the likes drop?

By dropping meaning a user will dislike the comment and reduce the likes you provided.

Do you proide refills on that or what?

You realise you are not allowed to resell upvotes from the panel you're using right?

If this was the case why is 500 the max per comment?

Because I have a limited number of accounts and I don't want my accounts getting flagged and for quality purposes. If you need more then 500 I can supply more then 500 but I won't be responsible for a refund if they drop or your comment gets ghosted.

I really doubt you even have the accounts , you just use a panel likee the rest of us

He isn't even allowed to resell this, so beware of buying!

This is what happens. You make a comment with your virus for spreading, your cpa link, your sales site. your yt channel etc. Then you send it to you me and I will give you likes on the comment. This will help boost your comment to the top comment and it'll stay there forever unless the yt channel guy deletes it.
