Thread: [I want to quit my job. Skipped 5 days now. Mom says I'm irresponsible?](#)

Prophet Banana - March 17, 2017, 7:05 pm

If you think sex toys are just produced, packaged, and shipped you are wrong. This is by far the worst job I have ever had. I am a tester for an adult toy company tailored for gay men. Butt plugs, dildos, you name it--my asshole has more horror flashbacks than war vets who fought in Nam.

I really want to quit but I'm afraid to face my supervisor. He is usually the one who monitors and assesses me when I test the products, having skipped 5 days without any call or notice he definitely realized and is likely pissed. My mood is absolutely down especially with my mom repeatedly telling me how irresponsible I am. Holy fuck I don't know what to do.

Ask for some bigger ones, it could work, maybe you'd enjoy it more.

If I'd have made this post no one would have found it funny. I would've just been a "bad troll."

Rep does wonders to you guys.
Funny thread.

Thomas Meme - March 17, 2017, 7:12 pm

Find another job after interview and acceptance. Quit old job done

Skurt - March 17, 2017, 7:25 pm

Why do you come here just to shit post? You're not funny...like at all.

TB12 - March 17, 2017, 7:46 pm

It's not just the rep. It's the fact that he is an Ub3r. Ub3r's typically will neg people when they get triggered. People don't post the "bad troll" comments to Ub3rs because they are stupid enough to care about rep so much like it is the most important thing in the world.

Not saying OP is like that, but most Ub3rs are.

Artifex - March 17, 2017, 7:48 pm

You have absolutely zero comedic talent. Stop posting your bullshit threads thinking you're funny. Everyone thinks you're retarded unless they have autism, they just won't tell you because they're afraid you'll negative rep them.

Kaleb - March 17, 2017, 7:51 pm

Just show your mom the war zone that is your asshole and see what she thinks. Keep us updated!

Plexcoo - March 17, 2017, 8:25 pm

ask your mom to replace you

SyCorporate - March 17, 2017, 8:27 pm

Same thoughts exactly. The more "well known" members, or them and their buddies just all post on each other's threads.

We have a high turnover rate. There's about 6 new openings daily.

UGH i would KILL for your job right now. and dude, if youve skipped five days, most likely youve already been fired. lol. but thats not cool. if you hate your job, keep attending and look for a different one on the side. but youre like a cool hacker guy so you probably dont need a real job to have an income. iono

Cha0 - March 25, 2017, 11:49 am

Man up, call your boss and tell him you quit. What's the worst that can happen?

Casads - March 25, 2017, 11:18 pm

When you turn low key gay because of your job

Kuso - March 25, 2017, 11:59 pm

Why not just quit? Fuck that.

Unless the money is good.

Trappy - March 26, 2017, 12:10 am

The lounge never fails to entertain me

ZerFallen - March 26, 2017, 12:50 am

You walk in, tell him you're quitting, and then walk out. Remain respectful, keep it brief, and put on an overly confident, optimistic attitude when you do it. Before he can get a word in, you'll walk out and he'll be in such a spiral it'll be as if you just took his job. Trust me, people are dumb and easy to manipulate.

NurSpec - March 26, 2017, 12:52 am

You should start taking double loads instead.

Dude quit that job asap , what would make you go into that field of work? Even if base pay was 30/hr i would never do a job like this

Prophett - March 26, 2017, 6:28 am

You may as well do gay porn and get paid a lot fucking more.

Or purchase Click's grey hat method and become a millionaire overnight.

mazyoona - March 26, 2017, 6:34 am

As much as you make me crease, I'm contemplating whether you're a troll or not.

SIM-2053312 - March 26, 2017, 7:35 am

Put a butt plug in your mothers asshole and ask if she likes it. She will probably do your job for you. I think you need butt plugs in ur ass tbh

Base pay for these jobs CAN exceed 150k a year, look it up on Ask Jeeves if you don't believe me.

Ger? - March 26, 2017, 8:21 am

Damn I would probably wanna quit too.

Edit: Unless I'm getting paid \$100k for every butt plug I insert into my anus (no homo)
