I have received a vouch copy and here is my honest review of the method.

Quality: 7/10

This is a very well written and well thought out method. With this guide, you could "Kidnap" multiple steam accounts. The method itself contains 7 Pages that is decently explained.

Grammar: 10/10

I couldn't find any obvious grammar mistakes, but overall looks very well written as I said above.

Originality: 9/10

I haven't seen anyone post or sell a method like this in the past nor seen it anywhere so I would think it's pretty original.

Content: 8/10

The content of this method is what it is, but I should remind you that it isn't going to allow you to go after any account you wish but will certainly give you the know how to gain access to plenty others.

Overall: 8/10

I recommend this to anyone who is looking to find some steam accounts that could lead to a potentially good account.

Thanks again DriftedTaco, for giving me a Vouch copy as I surely enjoyed doing a Review for you and Thanks for the method as I am going to benefit from this.

I am no way affiliated with this product and just doing my honest review of this method.

I have received a vouch copy.

Overall good quality, ok presentation. Very simple and straight to the point, no useless blabla.

Not a really "original" method, anyone could think about it but it's a pretty good method. I can say 100% that you will not get very good accounts though, mostly HL1 etc accounts. Good for low STEAM IDs and OG /id/'s I think.

I'd rate this 7/10, but this is definitely worth 5\$, so considering the price, I can give a 10/10.

Btw, this method is public.

I have received a vouch copy and here is my honest review of the method.

Quality: 7.5/10

Very unique yet simple method, have not seen anywhere else before. Will defiantly pull some results with a bit of persistence. With a bit of ingenuity this method could possibly be automated, which would result in massive gains. Nice job OP.

Grammar: 10/10

Well typed, easy to follow. Simple formatting keeps it to the point and clear.

Originality: 9/10

Pretty nice method, unique as I mentioned. Have not seen this on any other forums or anything, so cheers for that.

Content: 8/10

Very cool method. Will not get you access to specific steam accounts, but will allow you to get access to a ton of more random ones.

Overall: 8/10

I love it op. Cant wait to mess around with this and try to get some free accounts. Would recommend to anybody who wants to grab themselves a few accounts.

Thanks OP for giving me a vouch copy. Will update this thread once I get a few accounts.

I am no way affiliated with this product and just doing my honest review of this method. Credits for Daddy???????????? for this template lol
