Thread: [\[UNLIMITED\] Uber Eats & Rides 4 Methods \[\\$19.99\] Save HUNDREDS \[\\$SAVE\\$\]](#)

Fucci - March 18, 2017, 9:20 am

Four PROVEN Methods to get FREE Uber Eats & Rides.
In absence of [Aerial](#) & [LUCIO](#) Hackforums has been seriously lacking quality in the Uber Methods department.
Rest in Pepperoni to our fallen brothers.
We await your return <3

With permission from the original authors, I have struck a deal to rent the business from them until their return.
The deal details can be found in the spoiler at the bottom of the thread.

Four methods, One book; Saving you hundreds.

We have 4 distinct Uber methods that are completely easy to use.
These work worldwide as long as you have Uber or UberEats in your area.
There is no chance of all of these methods being patched, so you'll have food and transportation for your lifetime.

We never receive negative feedback for these methods because they simply work and we don't overprice.
You will spend an indefinite amount of money using Uber after a night out or just going somewhere
Why do that when you can just buy these methods, choose one you like, and done.
I shouldn't even have to convince you.

You can even sell Uber rides/referrals to people and start your own little business. Be creative.

Why feed a man a fish once, when you can teach him to fish for his life?

I haven't seen this method but pretty unique selling 4 rather than 1. GL with sales op.

Wondering if this may work with some other rides like Lyft? I think Uber was banned in Turkey (Recently)

sourdiesel87 - March 18, 2017, 5:21 pm

Is this 100% the same as Luic because if so, it wasn't working for me. Uber eats is not only giving \$5 credits.

Unfortunately this only includes Uber methods.

There are FOUR methods in the latest guide.
Each one is tried and tested.
Last working date: 3/17/2017

You may be making a mistake somewhere in the methods.
It can happen if you're not careful to read.

This book has been sold over 100 times, only 3 refunds have ever been given on sales of this eBook.

I do not plan to give ANY refunds, I use these methods myself and have for months.

If it doesn't work for you, then that's a problem with something you're doing ??

skyisblue - March 19, 2017, 7:57 am

Uber is banned in my city but that sell references and make your own business looks lucrative.

It's very lucrative, and it can be done anywhere in the world by almost anyone!

sourdiesel87 - March 19, 2017, 8:38 am

Well lucian and co weren't able to help me out to get it working. They claimed myself and 1 other guy just have bad luck. I hate to buy again the same methods, but maybe your support will actually help me out... But what is the uber eats value we can get? I know its not \$20 anymore isn't it just \$5?

????? - March 19, 2017, 8:53 am

I believe the problems you face are truly something on your end.

If you've had such an issue, then you should maybe re-think your strategy.

I truly think it's something you've done wrong along the methods.

You might have forgotten something.

You never know.

These methods are tried and tested, they work for everyone else.

Fucci is a ganster on discord and always bully me by removing my gay role.

I would deal with him if it involves dogecoin.
