no one is here why why :o

krisrudman - March 20, 2017, 1:14 am

pscan 8/35. ran it sanboxed, but it's just one active process. dough i cant figure out how to import files.

Edit: figured it out, but it gives 12/35 on pscan.

Haven't tried it yet. Will do

Goldmouth - March 21, 2017, 1:52 pm

Also make sure what you are binding is fud.
