Thread: [Xbox Gold 12 Month Codes! Only \\$20 BTC or \\$25 PP](#)

GhostLikesToast - March 19, 2017, 1:34 pm

Hello there fellow HackForums members!

I recently met a couple really good connections in the eCode game so I can get 12 month codes for pretty cheap.

Cheap enough, that I can resell them to any of you for a low price of just \$20 BTC or \$25 PayPal(PP only accepted by trusted members.)

I'd like to start building up my vouches, so I wont be going first to anyone. I plan on having this shop open for the foreseeable future, so I'm also looking for long-term partners.

PayPal accounts MUST be verified!

When buying with BTC, I release code to you once I have 3 confirmations. This is to prevent scammers. /double spenders.

Hope to due plenty of business here on HF for a long time :)
