Star Gaming Theme

Advancing Gaming Forums and Communities!

Star Gaming Theme is a creation of one beautiful theme for the MyBB 1.8 series for gaming communities.

The theme was created by both [Nasyr](#) & [Ben](#) of the [MyBBThings](#) team.

Keep in mind, this does not have to be for gaming communities!

About The Theme

The theme follows a very similar approach as to a very famous forum which is The Tech Game, we have recreated a similar theme from the older version of the forums. Using MyBB we have had the power to override anything and make many new adjustments to the theme.

We are proud to present Star Gaming Theme to the MyBB community to use as they please.

This looks a hell of a lot like The Tech Games old theme.

I'm worried that you didn't even read the original post I made here.

This is a very well done design Nasyr. I applaud you for releasing such a quality theme for free.

I remember a theme like this, if not this theme being used on gamingmb. Pretty dope.

Yeah they were using something very similar to this. We aimed for a goal like the old TTG theme.

GamingMB owned by Blue? Blue ripped majority of TTG's elements such as their HTML, CSS and images. I hear he's a changed man now... wonder if he has any forums on the go.
