Nice to have direct contact information, and the quick responses. Asked some questions before purchasing, and got a quick proper response. Really good purchase, I've legit never seen these methods before. If you're interested in purchasing be sure to ask denny some questions he will clear it up for you quickly. It only took me like 10 minutes to setup too, that's a plus.

Yes you can use this method from Japan.

Dady - February 19, 2018, 3:19 am

I've owned this product for a little over a year now and the methods inside are still working as good as they ever have!

The methods are extremely easy to read and understand quick to set up and easy to use!

I had stopped using it for a while to try out different eBooks but I found this one had the best results

so I started using these methods again about a week ago here are my earnings so far!

The earnings came in fast! Though it started a bit slow.

YvngRxndom - February 19, 2018, 9:16 pm

I'm interested, could you pm me?

Reznov80 - February 20, 2018, 3:16 am

Does this involve E-bay, drop shipping or any physical items at all?. Can i be paid through Paypal?

Papagalaki - April 2, 2018, 1:02 pm

Hello dear friend,

I would ask you, if your method does involve E-bay, Drop Shipping or selling of physical items ?

Best Regards

Just bought this and there's already two issues you may not be aware of. Gmail puts the e-mails in spam, and chrome lists the download as dangerous. Have to use tor to download it. xD

Edit: Nope TOR doesn't work either IP restricted. Had to change Chrome Settings.
