Thread: [Leroy's Computer Clean-up Service | Malware, Spyware and Virus Removal](#)

Leroy Jethro Gibbs - March 20, 2017, 11:23 am

Leroy's Computer Clean Up Service

I clean it up so you don't have to.

About

Looking for computer clean-up but don't want to clean it yourself? I can clean it. I remote into your computer and clean it up using various free cleanup tools. Just incase the tools don't get everything, I use my experience cleaning computers IRL for people and put it to use finding those pesky adware and malware issues that tools don't get.

Remote SupportOne-Time Clean-upPrice: 10 \$

Features: ? Virus Removal

? Malware Removal

? Spyware Removal

FAQ

Spoiler ([Click to View](#))Q: Are you going to infect my computer?A: No. (Just incase someone asks...)

Q: What is 3 day support?A: 3 Day Support is support after completion. If you have any infections within the next 3 days after I clean up your computer, I'll clean it again at no charge. Q: What is 3

month support?A: Pretty much the same thing as 3 day support with the exception that instead of 3 days of support, you get 3 months. So if you are at all infected within the 3 months, you can have

your computer cleaned again without charge. Q: How will you connect to my computer?A: I will use TeamViewer. Its free and safe. As far as I'm aware, its one of the best Remote Support tools. Q:

Are you indian?A: American Indian but no I won't sound like an indian if you want phone support. Q:

How do I get this service?A: You contact me with which plan you want via one of the contact

methods mentioned. From there we can discuss times to set so I can provide you support. Q: How long will this take?A: Honestly, that could vary from a few minutes to a few days. It honestly depends

on how badly infected your computer is and if the hardware + internet connection limits the rate of cleanup. I'd say plan for at least 4 hours. Q: Can I make a test machine and load it up with malware

and test you?A: Yes but you will still have to pay the fee. Anyone can say they created a test

machine for me to test on. That's why I won't offer it free. I might have vouch copies though.

Terms of Service

Spoiler ([Click to View](#))? You must agree to a set time period prior to me starting the cleanup. If you do not have enough time, we can reschedule.

? All sales are final. Each package offered has an extended support period so if you have issues, you can get them resolved within the period specified.

? I will not be responsible for any missing files or data. I would recommend ensuring you have backups of your data.

? All tools I use will be downloaded using your own computer. This ensures that there is no file tampering prior. In the situation where you have an infection preventing downloads of the programs, only then will I transfer the files from my own computer to yours.

? Don't let me see anything I shouldn't. This might sound strange but I will be accessing your computer. I don't know you personally so I wouldn't want to see you in your birthday suit. Please ensure that any photos or documents displaying your glory are either in a zipped folder or have been removed.

? Ask me questions. If you are unsure of what I'm doing or concerned with what I'm doing, let me know. I don't want to freak you out. I'll stop and discuss whatever is bothering you.

? Payment is due prior to support. Exceptions can be made but only for certain members. I'm bias.

? By requesting my services, you agree to allow all remote sessions to be recorded by me. These sessions are to protect me against any possible false scam reports.

? If you have any type of viruses or malware you wish to keep, such as a remote administration tool for your personal servers etc, be sure to remove it or back up the files. This will be useful in the event that a tool removes your software when being detected as a virus itself.

Accepted Payment Methods

Bitcoin, Litecoin, Dogecoin

I might allow PayPal in the future but I'm currently fighting a chargeback which has caused my account go negative.

Vouches

Spoiler ([Click to View](#))

(Mar 22, 2017 10:46 AM)Fucci Wrote: [\[CITE\]](#) I can vouch for the legitimacy of this service. Leroy knows what he's doing.

He's helped me countless times with small projects and dropped me some knowledge that I didn't know I needed!

VOUCH!

(Mar 22, 2017 04:34 PM)Anointed Wrote: [\[CITE\]](#) Vouch for Leroy! I got the last vouch copy and he checked my laptop out for me! Didn't find anything, so that's good. ?

(Mar 22, 2017 06:54 PM)Shrek Is Life Wrote: [\[CITE\]](#) I received a vouch copy of his service and I

have to say he definitely knows what he's doing. I'd say it took about an hour or so to thoroughly check my computer and find any pesty viruses. Overall great service, I could see people really taking advantage of his service, especially only for \$10. He also downloaded tools that can help prevent any malicious activity in the future. I'm extremely satisfied with the results and I would highly recommended to anyone who is riddled with viruses or just looking for a check up. Also, he's a very chill guy to talk to and have a conversation with while waiting for stuff to scan.

Service- 10/10

Communication - 10/10

Professionalism - 9/10

Pricing - 9/10

Alright. PM me please.

(Mar 20, 2017 02:41 PM)xadamxk Wrote: [\[CITE\]](#) This is the first thread I've seen that used my [Thread Design Generator](#).

Looks pretty good!

I thought so as well. I did some edits such as TOS but other than that, it works pretty good. I also used your generator for my signature space auction.

I think it will too. At least those who don't want to do it themselves.

Thanks for the love guys! I'm glad your all satisfied with my service! Even though I had like 3 of you want me to clean your stuff back to back, I was able to do it. I'm actually surprised how clean most of your systems are. Usually when I work on computers in person where I live, they are riddled with malware and spyware. I'm glad you guys are savvy enough to know how to keep your systems clean.
