Hello , my friend tell me Here i can Find some one help me
i have an imvu account
and someone hack me
his account is Tahiraziz9
he got all my credits and changed my password and my register mail
and i asked imvu for help me to restore my account but it's not work
so that i ask your help to hack him i don't need his account or his credits
u can take all he has and delete his account for me
please make him target for you
he got over 380 k credits from my acc before he delete it
and i know u will find more than 595 k credits in his account
this for you as a gift for deleted his account
learn him hacker can be good people who help other people
thank you

Dude start to block your credit cards, emails, and send the receipts, in paper if you cannot get your email back, of your payments to the support. The name that appears on the payment is the owner, they have a copy too. There is no need to hack him back unless you just want to hack him.
