Thread: [\[Weekly Updates\] New Music Thread - Stay in the Loop](#)

Confound - March 20, 2017, 11:17 pm

I listen to a lot of music on a regular basis and I am constantly searching for new music to check out. I predominantly listen to rap/hip hop/soul/R&B/funk, so if any of these genres interest you, I encourage you to check this thread regularly for constant updates and new songs/albums to check out.

I will either update the thread daily or weekly, depending on interest level.

The songs I add will be a collection of new songs that I find via the internet through either Spotify, Soundcloud, HotNewHipHop, as well as some other resources.

Some of the songs/albums may be new releases, while others may be a bit older, but still relatively undiscovered.

If anyone has requests as to types of music they would like me to add or search for, feel free to send in requests.

I look forward to engaging with you all, and here is my first list.

I lost touch with this thread, but I plan to bring it back in the next coming weeks. Should be good.
