Thread: [CPU CRYPTONIGHT SILENT MINER | 100% CODE \(NO EXTERNAL MINER\) | FUD](#)

French Products - March 22, 2017, 9:49 am

SCREENSHOTS :

SCAN :

FOR PURCHASE A BUILD :

FOR PURCHASE THE BUILDER :

F.A.Q :

Q - Is it FUD?

A - Yes at scantime, some AVs at runtime may detect it.

Q - What is better on your miner than others on the market?

A - My miner is the first miner that is not using an external miner, your execution rate may be better, miner's optimisation and mining rate too.

Q - Does your miner has dependencies?

A - No, our miner is in C++ and was made by a developer experimented of 8 years old.

Q - Can I resell output?

A - No, you can't. If we know that you're selling output from our miner your license will be ban instantly.

Q - Can I crypt it?

A - The most part of crypters has a RunPE for x32 PEs only. You may search a crypter that support our miner but make sure that it can crypt x64 PE.

TERMS OF SERVICE :

? We do not provide any refund under any case.

? Before doing anything please read about laws from your country.

? You are responsible of all your actions after built an output.

? Illegal activities under any form are not allowed and strictly punished by your account suspended.

? Sell output from our software is totally forbidden.

? Reverse engineering under any form against our software is totally forbidden.

? Scan on a scanner that distribute is not allowed and it may give your account closed if you got any abuse.

? When your account is closed, we have the right to do not give you the reason and you cannot ask about a refund.

? This terms of service may change at any given time.

? When you purchase our product you accept automaticly this terms of service.

Could I get the second vouch copy? Appreciate it.

Valeant - March 22, 2017, 10:20 am

When you say anti task manager does that mean the process doesn't show on task manager or it disables the user from running task manager?

French Products - March 22, 2017, 10:24 am

(Mar 22, 2017 10:16 AM)Nexio Wrote: [\[CITE\]](#) Could I get the second vouch copy? Appreciate it.

I'm still in waiting of the first guy, so you'll be the first vouch copy.

For get that, click on the image under "FOR PURCHASE A BUILD :'" and write all details asked on the PM form.

(Mar 22, 2017 10:20 AM)Valeant Wrote: [\[CITE\]](#) When you say anti task manager does that mean the process doesn't show on task manager or it disables the user from running task manager?
No, it will just stop any mining.

VirtualMon3y - March 22, 2017, 10:40 am

Congratulations on your release mate. Looks like another quality product coming from you. Good luck with sales. ?

©**Ratatouille™** - March 22, 2017, 10:47 am

VOUCH !

I personally make the beta test and is work very fine
The BEST miner i tested since i started

Proof :

With 500 bot i up to 14 k !

Excalibur' - March 22, 2017, 11:55 am

This miner is used for botnets, am i right?

SoccerBet - March 22, 2017, 12:04 pm

Can give a vouch if u want? Pm me.

Hey let me Know if i can get a copy Thanks ?
And good Luck on sales ?

Cosa Nostra - March 22, 2017, 12:46 pm

Looks like a great product!

I wish you the best with sales!

(if you need review HMU!)

Kind regards,

int main() - March 22, 2017, 12:46 pm

Two words I can say,

BUY NOW!

I received a vouch copy of this and I can safely say that out of the 2 other native miners on sale on this forum this one beats them by a mile, the execution rate and stability was increased by over 150%

I vouch for this product with all my heart, thank you!

French Products - March 22, 2017, 1:02 pm

Thanks.

Codefuser - March 22, 2017, 8:15 pm

Good miner, LanMan and French Crypter are HQ coders.

Mitlar - March 22, 2017, 9:17 pm

This miner is not like the other shitty ones you see on the market. It is coded by two well experienced coders who know what they are doing. Definently has my vouch. GLWS friend.

LanMan - March 23, 2017, 8:24 am

(Mar 22, 2017 09:22 PM)Friedrich Nietzsche Wrote: [\[CITE\]](#) Looks like a quality product, however you should consider adding a x86 output as there are still a lot of x86 machines out there.

I already thought about making a x86 release, the thing is: monero PoW is based on 64bit, all the calc is 64 * 64 bit.

Even if i re-do the math to support x86, most cpu running x86 probably doesn't support AES-NI instruction set anyway.

That means most CPU on x86 OS will only do a maximum of 8-10h/s while an AES-NI x64 cpu will make 100-300h/s easily.

That's not worth the time and the effort ?

French Products - March 23, 2017, 10:25 am

The console window will be removed in few mintues, sorry for that.

LanMan - March 26, 2017, 7:27 pm

New Version:

- Reduced exe size, exe is 5 times smaller now (Dropped SSL/TLS support and openssl).
- Changed anti-taskmanager to support injecting miner dll in processes.
- Fixed anti-taskmanager using a bit of cpu when idle.
- Small performance boost, + 5-10% .
- Quick refud, back to 0/35

Mitlar - March 27, 2017, 11:07 pm

Any CryptoNight coins, for listing a bunch:

- Monero / XMR
- ByteCoin
- Boolberry
- Dashcoin
- DigitalNote
- DarkNetCoin
- FantomCoin
- PebbleCoin
- QuazarCoin
- Aeon
- CryptoNoteCoin
- Dosh

And there is a lot more.

M O D E R N - March 29, 2017, 12:11 pm

Vouch 100% Finally one that works! Don't go with any of the others out there, this is legit!

xaraXviros - March 29, 2017, 1:59 pm

Well done

Well done

:) :) :)

The Monetizer - April 1, 2017, 2:24 pm

if I buy your CPU version now, would I get the GPU version as an update to my current CPU version?

You clearly don't understand what the bot means... it can be devices that are legally managed by someone. Victim or slave on the other hand would implicate the devices are obtained illegally.

Nature - April 12, 2017, 9:01 am

(Apr 12, 2017 09:00 AM)Malicious Intent Wrote: [\[CITE\]](#) You clearly don't understand what the bot means... it can be devices that are legally managed by someone.

I know what a bot means, but do you really think that someone has 2k computer/devices to use on it.

It's possible that someone might have, but the chance is small.

Malicious Intent - April 12, 2017, 9:04 am

That's not for you to judge. In corporate environment networks reach thousands of devices. Data centers with lots of spare equipment are also mining.

(Apr 12, 2017 09:06 AM)Nature Wrote: [\[CITE\]](#) No shit it's not for me to judge. I just found it funny.
Take it or leave it.

I don't see anything funny about it. There is lots of people with access to thousands of computers. Just because you don't have that kind of access doesn't make everyone who does, a criminal. Lets not discuss it on the sales thread. If you want to make it a debate you can make a thread. Have a nice day..

helpme555 - April 14, 2017, 7:33 am

Still no reFUD? Only posting here because I can't PM and you haven't been on xmpp in a week....
